<b>1</b>	<p><b>Read the following passage and answer the questions that follow :</b></p> <p><b>CLIMATE CHANGE AND DEVELOPMENT</b></p> <p>Since its inception the earth's climate has been changing as a result of natural forces. But in recent decades, there have been growing concerns about the impact of climate change that has been caused by mankind's activities during the process of industrialization and economic development. A particular concern has emerged around global warming due to the emission of green house gases, and attempts are being made both at national and international levels to reduce the level of emissions. However, carbon-reduction measures can be controversial, because of concerns that they result in adopting practices that are less amenable to economic development. For India, a country threatened by climate change but struggling to pull hundreds of millions out of poverty, what is the best way forward ? Environmental campaigners argue that India's large and growing population and the extent, to which its economy is closely tied to its natural resource base, make the country 'considerable vulnerable' to the impacts of climate change. The world Health Organization has pointed to the adverse effects of climate change upon human health, and suggested that reducing greenhouse gas emissions can be beneficial for health. It is argued that it is in India's direct interest to deal with climate change now the problem is not something that only future generation will experience. Experts have warned the dangers of decision making based on hypothetical worst-case scenarios.</p> <p><b>Source : Topic Guide</b> <b>(Debating Matters of India)</b></p> <p><b>On the basis of your reading of the above passage, answer the following questions :</b></p>	<b>5</b>

3	<p><b>Read the following passage and answer the questions that follow:</b></p> <p>The celebrated inventor Thomas Edison is well known for his statement : “Genius is one percent inspiration and ninety nine percent perspiration.” Hard work is essential to a life of real success and fulfillment, being filled with a deep sense of inspiration and commitment, to making a difference in the world, is an even more important attribute.</p> <p>All of the great geniuses of the world were inspired and driven by their desire to enrich the lives of others. When you study their lives, you will discover that this desire became almost an obsession for most of them. Edison was inspired to manifest the visions he saw on the picture screen of his imagination into reality. Jonas Salk, who discovered the polio vaccine, was inspired to help others from suffering from this dreaded affliction.</p> <p>How inspired are you in your own life ? Do you jump out of bed on Monday mornings or do you simply lie there with a sense of emptiness flooding through your body ? If your level of inspiration is lower than you know it should be, read a good self-help book or listen to a motivating audio programme. Start spending time with people who are passionate about what they are doing in their lives and dedicated to making their best out of life. With a healthy dose of inspiration, you will quickly raise your life to a whole new plane of living.</p> <p>Answer the following questions in brief :</p> <p>(a) What is essential for real success in life ?</p> <p>(b) Which desire became almost an obsession for many great men of the world ?</p> <p>(c) What inspired Jonas Salk to discover the polio vaccine ?</p> <p>(d) Mention two things that can be done to increase our level of inspiration.</p> <p>(e) Which word from the passage means the same as ‘encouragement’ ?</p>	5

Eager in your eyes to please  
Proffer meadows, brooks and trees;  
Nature strives for your content  
Never charging you a cent.

Learn to love a garden gay  
Flowers and fruit in rich array  
Care for dogs and singing birds  
Have for children cheery words.  
Find plain food and comfort are  
More than luxury by far.  
Music, books and honest friends  
Outweigh golden dividends.

Love your work and do it well  
Scorning not a leisure spell.  
Hold the truest form of wealth  
Body fit and ruddy health.  
Let your smile of happiness  
Rustic peace serenely stress :  
Home to love and heart to pray-  
Thank your God for everyday.
