Dear Sir

Sub: Diminishing number of birds

With deep regret I wish to bring to the kind notice about the decrease in the population of birds in Mysore. Mysore is known to have more than 500 species of birds but many of them are on the verge of extinction.

According to the reports from the recent seminar held on Conservation of Birds, there was a time, when a number of birds would flock to the banks of river Kaveri, Bandipur wild life sanctuary and forested canopy in Mysore. These numbers have come crashing down in the recent years. The main reasons are rampant construction of buildings, bridges and flyovers, cutting of forests and of course environmental pollution. Many species have become endangered. It is time the people of Mysore are made aware of this grave situation by conducting seminars and workshops.

The locals should be given incentives for preserving the birds. Sanction for the construction of buildings, malls, bridges and so on should be given only after proper evaluation of the environmental impact of those constructions over the life of species there. Let's not forget that birds are an important link in the food chain.

I request the government, environmentalists and the society to show their concern before it is too late. I would be thankful to you if you would publish my view in your esteemed daily.

Yours faithfully

Sir,

Subject : Exploitation of Children in Urban Society

I want to draw the attention of the general public and the concerned authorities towards the above cited problem through this letter of mine in your newspaper.

In Urban Societies parents are increasingly using their children as means of achieving their own unfulfilled wishes, resulting in physical and mental exploitation of the children. Forcing children to participate in reality shows or cajoling them to play roles in TV serials by shunning games are some examples of child exploitation. Even parents among audience of such programmes openly compare their wards with child actors on TV. In school arena parents put pressure on their wards, to excel in the field of academics, sports and other activities alike without considering their field of interest and abilities.

The implication of exploitation of children in the guise of making their future bright is evident now. The diseases like hypertension, obesity, diabetes which were known to be adult diseases a decade back are common among children. Psychotic problems among children are also rising with cases of drug abuse, depression or even suicide is reported frequently.

Authorities in the Child Rights Department and educational institutes should come out with bolder steps to curb the problem. There should be a ban on all types of advertisements and programmes on TV with child actors below 14 years of age. There should be regular counselling for parents in schools to make them understand the consequences of stressing the children.

Yours faithfully

Samita
