Preface

Learners of vernacular medium in the Chhattisgarh state government schools have been exposed to a Functional Communicative Approach in English at the upper primary level. The focus has been on a gradual improvisation in the ways to acquaint the learners with all the skills of language while reading a textbook in English.

English Reader-9 is an attempt to provide the high school learners an opportunity to understand and use English with ease through an exposure to interesting and challenging texts and exercises. We have tried to create space for more comprehension, practice and production skills in English through a variety of genre under different themes.

This revision is essentially based on the feedback obtained from the students and teachers who expect a comprehensive change in the approach of the English textbook at high school level. It has been ensured that pieces of literary merit and authentic material are exploited for formative evaluation and self learning. The content of the book has been distributed into themes each containing a pre-reading, a main reading text, a poem and a third reading selected from extracts that inculcate life skills and help learners grow confident in using English. The book has been supplemented with enjoyable Practice Exercises. It is intended to enhance reinforcement of the language skills, vocabulary and structures of English learnt in the past years through more exposure in these areas.

We would like to acknowledge, with thanks, the guidance and support provided by Prof. Rama Kant Agnihotri and Dr. A.L. Khanna and all the members of the writers' group and the special assistance group from Azim Premji Foundation, Bengaluru who have consistently worked hard to give shape to the book within severe time constraints. We express our appreciation for the illustrations and lay out design of the text book to the members of the Vidya Bhawan Society.

ETB (Energized Text Book) is an innovative effort by the Department of school Education and State Council of Educational Research and Training Chhattisgarh for the capacity building of teachers and students by providing extra text book related content that can be accessed both online and off line(after downloading). The objective of ETBs is to offer extra topic related content (in interesting audio- video and animated formats), assessments and teacher reference material on the same platform.

The council welcomes suggestions from teachers, students, teacher trainers and parents for bringing to its notice any shortcomings or suggestions for improvement in the future editions of this book.

For the Teachers

According to the National Curriculum Framework 2005, we must recognize that, given space, opportunity and freedom, children generate knowledge from textbooks, media and surroundings. This textbook is an attempt towards exploiting the creativity and competence of the teachers to facilitate them build in their students higher levels of language proficiency in English. Following a Communicative Functional Approach, the content of the textbook has been divided into themes : Environment, Sports, Awareness about Health, Travel and Tourism and Culture. Each theme is introduced with a Pre-reading section and includes a main reading text (preferably literary text), a poem and a non-literary text. The selected content is exploited for Meanings in Context, Comprehension, Vocabulary, Grammar, Writing, Listening and Speaking, Study skills and Project. Activities for Listening and Writing are included in the book to reinforce comprehension. The Communicative Functional Approach is evidently an improvement over the Structural pattern that exploits the possibility of communicative exercises in Grammar, Vocabulary and other language skills. It also focuses on the functions of language through Listening and Speaking tasks that justify the approach in the form of integrated exercises. The integration of skills will be seen in the synthetic treatment of Study skills and the teacher's role in facilitating the learners' engagement with the text.

You would need to focus your attention on the way a unit should be treated in the classroom. The following points might help you use the book better:

1. Every text is preceded by a Pre-reading which is an introduction to the theme. Most of the units have visuals in the pre-reading section which provide adequate space to stimulate the learners' engagement with the theme. Teachers are expected to motivate the students to discuss, discover and react to the visuals dealing with the themes. A few brief questions have also been included in the pre-reading section to connect with the three readings and related activities that follow in each unit.
2. The meanings of some difficult words have been provided according to their usage in the given text. You are advised to have a copy of an English dictionary to have unambiguous answers about spelling, meaning, grammar and usage of words.
3. Care has been taken to help the learners critically understand the text through not only 'wh' questions, but also through visuals, multiple-choice questions, true and false statements and higher-order thinking questions that encourage the learners to critically reflect and extrapolate to go beyond the text.

4. Exercises/activities in vocabulary have been designed to help the learners expand their word power by making them think about synonyms, antonyms, phrases, derivatives and words related to specific registers/domains of real life. Most of the vocabulary exercises are text driven and encourage the learners to revisit the text again and again and scan it closely to get to the word they may be looking for. The major aim has been to activate the use of words learnt and provide a spiral exposure to an assumed word power of the learners.
5. Grammar in the text book is contextual. The structures and language functions recurring in the texts have been focused and reinforced through practice exercises. An attempt has also been made to link these structures and functions with their written and oral expressions in the sections on writing and speaking.
6. The Writing section encourages the learners to use the language creatively by asking them to think independently on a topic given to them, brain storm it in groups and finally organize their ideas before getting down to preparing individually their first and subsequent drafts. The students are also given some exposure to the mechanics of writing i.e. spellings, punctuation marks and capital letters.
7. The texts for the Listening tasks have been very carefully selected. Some of these texts include announcements, conversations, recipes and instructions. These texts have been provided in the Appendix-I. Care should be taken to read the texts slowly and clearly, preferably twice before the learners are asked to attempt the task. Although the instructions use a very simple language, the students might need hands-on support in some of the tasks.
8. Speaking tasks are rooted in the theme of the unit and they not only support the text but also reinforce the language functions and vocabulary highlighted in the texts. Students are encouraged to discuss issues/topics in groups/pairs, organize debates and speak extempore on related topics confidently and with relevance. Teachers need to take special care that the learners who are shy and lack confidence are also encouraged to participate in group discussions, and get a chance to articulate their ideas/ opinions/ views. Initially, they may use some faulty expressions, but the teachers should ignore these. As all of you know, mistakes/errors are mere steps towards learning and not the end of learning. All of us have learnt through making mistakes.
9. The section on Study skills includes tasks such as filling in information, answering brief questions, taking notes, interpreting tables, using a dictionary, preparing flow-charts etc. Most of these tasks would be learner friendly because they tend to include areas of the learners' interest with a very low demand on their productive skills.

10. Projects have been identified as an extended activity towards building integrated language skills. Some of the projects have been included to encourage the learners to conduct surveys which gradually are expected to motivate the learners towards self-evaluation and get peer- feedback.
11. The textbook extends a helping hand to the teachers in many aspects but it expects them to be more focused on and proficient in their use of English in class. The textbook provides enough space for formative evaluation. Teachers will be given orientation and provided support for both formative and summative evaluation.
12. While reading questions should be framed by the teacher during teaching a lesson in the class. This will be required to ensure comprehension of new words and the context of the content. Writing skill should preferably be practiced as a follow up of other skills.
13. Students of Class IX in many of the schools of the state have been found lacking in the basic competencies of English language in accordance with their exposure to English till the end of upper primary level. Hence, they hesitate to speak and cannot write effectively. For such learners the exercises in the text might not be adequate practice. Therefore, Practice Exercises that supplement the lessons in the text book have been designed to provide more practice in the language skills along with support material to enable enrichment in use of vocabulary and structures. We suggest that teachers compulsorily deal with these Practice Exercises as they complete each unit in the text book so that evaluation can also be based on this practice. This would also be a remedial kit to help its users attain the desired level of proficiency in English.

Every time you go to a class, it is a new experience. Sometime you may face situations that may expect you to take an extempore decision about how to deliver or handle the content. However, we request you to share every such experience that would help in improving this book towards achieving its communicative objectives.

SCERT Raipur wishes to acknowledge & express heartfelt thanks to all the direct & indirect sources referred to in this text book.

About the Practice Exercises

The try out edition of English Reader Class IX, 'Flight' was an attempt to help students of Secondary level in continuity to the Communicative Functional approach followed in the text books of classes VI-VIII. The book has been featured with more exposure to reading in different genres and themes.

After the field reports for the try out edition, the book has now been edited and five units containing three lessons each (Total 15 lessons) have been retained. It was found that students and teachers found the book interesting but the approach rather new. Also, the need to familiarize and provide ample practice with grammar, comprehension and integrated skills was emphasized.

The Practice Exercises are designed to equip learners with self learning strategies and more attractive practice. The exercises have been based on selection from the reading texts and small easy and enjoyable extracts from poems which have been exploited for the development of language skills.

The focus of the practice exercises :

Enhanced practice in factual and inferential comprehension through exposure in multiple choice type exercises.

Extended grammatical practice for all the structural items occurring in context.

Supportive listening and speaking exercises.

Writing tasks that include activities to support study skills.

Some important points to note:

1. Each unit has one practice exercise. Please make the students do these exercises after completing each unit of the text book.
2. The exercises can be used partially for class work and home work according to the achievement level of the individual learners.
3. Please read the listening texts slowly and carefully.
4. Help the students understand and do the speaking tasks in the class.
5. Help the students do the writing tasks and check their exercises among them selves.
6. These exercise can be used for formative evaluation of the learner in English language skills.

Reading A

The Jamun Tree

In the backyard of the house where Ricky, Jonak, Monpi and Tinky lived, stood a lovely Jamun tree. It was a tall and stately tree, with dark green leaves and twirling branches that clawed into the sky.

The Jamun tree was a source of joy to the children. They loved to climb its knotty, gnarled branches and play hide and seek among the foliage. During the sweltering summer months, hot and tired after playing in the backyard, the children took rest under its welcome shade.

During summer too, the fruits of the Jamun tree ripened. At first these appeared in tiny, unripe green clusters which gradually swelled into juicy, purple-coloured fruits. The branches of the tree drooped with the weight of their luscious burden. Their greatest joy was to eat the ripe Jamuns while sitting on a long, sturdy branch of the tree. The tree bore so much fruit that children from the neighbourhood dropped in too and ate as many Jamuns as they could. The backyard always resounded with the shrill cries of happy children.

The syrupy sweetness of the Jamuns invited other visitors too. A pair of squirrels, who lived in a nearby bamboo grove, came regularly to nibble at the fruits. Scores of beautiful bluebottles flitted around the tree settling every now and then to drink nectar from the fruits. Honeybees, who seemed to be forever busy, filled the air with their urgent buzzing. Ants arrived in great numbers, marching in straight lines to carry off the fruits which had fallen onto the ground. The children would spend hours watching the

ants. They marvelled at the discipline with which these hardy little creatures toiled, carrying loads many times their own weight.

But the visitors that the children loved most were the birds—squabbling magpies, chirping sparrows and squawking parrots being the commonest. Ricky and Jonak built a bird bath and their sisters, Monpi and Tinky filled it with water. The birds enjoyed splashing about in the cool waters.

The month was January. The Bihu festival was fast approaching. There would be much feasting and merriment during the festival. Each household would build a *mejhi* - a pile of firewood stacked neatly together in their backyard. On the first morning of the festival the *mejhi* would be set alight invoking the blessings of Agni, the god of fire.

“Let’s build a champion *mejhi* this year.” Ricky suggested a few days before the festival.

Jonak, Monpi and Tinky warmed to the idea. Monpi, the most practical one, saw the difficulties ahead. “But where will we get so much wood from? Father might buy some firewood but that’ll be just enough for a tiny *mejhi*.”

“True,” agreed Tinky. “Mother uses a gas stove in the kitchen. There’s no firewood in the house.”

For a while the children pondered over the problem. Then Ricky’s gaze fell on the Jamun tree and his eyes lit up.

“We can chop down some of the biggest branches of the Jamun tree!” he exclaimed. “It’ll provide us with so much firewood, that we can easily build a giant *mejhi*.”

Jonak clapped Ricky on the back. “Good idea!” he said approvingly. “Our *mejhi* would be the envy of all our friends in the neighbourhood.”

Monpi and Tinky were equally enthusiastic. How could they cut down those enormous branches? If their parents knew they would surely be angry. And even if they were four of them, cutting down a tree so large would take them at least two days!

But the chance came just one day before the festival. Their grandmother had fallen ill in Calcutta and she wanted their parents with her. Before they left, their mother gave them very clear last minute instructions.

“Don’t forget to get the milk in the morning. And remember to do your homework every day. And if you have time, go to the woods and pick up twigs and sticks that have fallen on the ground. You can add that to the wood we will buy for the *mejhi*.”

The following day, happily for the children, was a Saturday. Borrowing an extra axe from their neighbours, they divided up the duties. Ricky and Jonak, being older, took on the heavy job of cutting the branches. Monpi and Tinky were to stock the wood in neat piles on the ground.

Ricky climbed to one of the top branches. It wasn't easy getting there but he managed it. When he had tucked himself between the huge trunk and the thick branch, he looked around. What a magnificent view! There in the distance the deep, placid river flowed past the temple. A train went toot-toot, leaving a trail of ash-grey smoke. In the Jamun tree itself birds twittered happily. But he was forgetting the *mejhi*! Picking up the axe, he began a systematic chop-chop close to his body.

Suddenly he could hear a shrill, high-pitched scream. It was the hawk-kite that used to nest in the tree. He could only see one—did that mean the other had gone off to hunt for food for fledglings? Were there little ones in the nest?

Curious, he climbed a little further. And sure enough—there were two nearly full-grown chicks. In fact, they were so big, that they looked almost like their parents, only lighter in colour.

“Hey, Jonak!”, cried Ricky climbing down. “There is a nest with two young hawk-kites here!”

“And look, Ricky—there! There's an enormous beehive. Must be two years at least!”

Sitting astride two branches they wondered what was to be done now.

“Obviously, we can't cut that side of the tree down. What will happen to the chicks?”

“Nor this side. And think of all the effort that's gone into the making of that beehive!”

“And there must be many other nests that are used regularly by the birds. See, that's the hole that the barbet uses.”

“And look—this hole is obviously a squirrel's home! I can see peanuts inside!”

They climbed down slowly.

Down below Monpi and Tinky were gathering whatever sticks and twigs they could find. They were surprised to see the brothers down so soon.

“What happened?”, they asked.

Somewhat embarrassed, Ricky explained, “You see, this tree is a home for so many creatures that we couldn’t bring ourselves to cut it down.”

“Oh, that’s not fair!”, cried the youngsters together. “What’ll happen to our *mejhi*?”

“Well, let’s think,” said Jonak. “We can’t cut the tree, that’s obvious. How would we feel if someone burnt our house down?”

“Hmmm ...” said Monpi, looking thoughtful.

The four of them sat in the shade of the tree, leaning against the gnarled trunk.

Finally Ricky spoke. “I think we have to forget our plans for a big *mejhi* this year. Maybe next year ...?”

Jonak had an idea. “Look, in our class we have a social forestry project. They are giving us subabul saplings to plant in February-March. I think I’ll ask them for some. These trees are specially grown to be cut so that older trees can be saved.”

Ricky said, “What a good idea, Jonak! Get some saplings. We’ll plant them along the boundary wall. In two years’ time, when they are grown, we can cut them down and have a grand *mejhi*!”

When their parents returned, Monpi and Tinky told them about how the Jamun tree had nearly become a *mejhi*.

Father smiled. “I’m glad you didn’t cut it down. Think what would have happened. You and your friends climb the tree, eat its fruit, play in its shade. If it weren’t there our courtyard would be silent.”

He stopped for a while, then continued. “It takes years and years for a tree to grow, mature, bear flowers and fruits. To cut one down takes just a few hours.”

Then he smiled and said, “Come, I’ve brought each of you a gift. They are lying in the backyard.”

The four youngsters rushed to the back of the house. To their delight, four saplings—one each of Jamun, mango, guava and jackfruit—were propped up in polythene bags against the bamboo fencing.

The children lost little time in digging four holes in the four corners of the backyard and planting the saplings. They promised to water the plants morning and evening. It would take some time for the saplings to grow up into trees. And these, they decided, they wouldn’t cut down. They would grow into big, tall trees. The eucalyptus and subabul, they could be cut.

That night as the children got ready to go to bed, Jonak said, “We may have a small *mejhi* this year but I’m glad we didn’t cut the Jamun tree.” The others nodded happily.

Comprehension

I. Answer the following questions.

1. Describe the Jamun tree in at least five sentences.
2. What options did Ricky, Jonak, Monpi and Tinky find out for getting wood for *mejhi*?
3. What changed Ricky's enthusiasm for cutting the Jamun tree?
4. What are the good things they had been getting from the Jamun tree?
5. Why did Ricky, Jonak, Monpi and Tinky want to have a big *mejhi*?
6. What arrangements did the children make for the birds that visited the Jamun tree?
7. Do you think it is good to cut a tree for the sake of a festival? Give reason (s) for your opinion.

II. Complete the following table.

Visitors to the Jamun tree	Names	Description of Activities
Animals		
Birds		
Insects		

III. Work in groups and discuss these questions and then write your answer individually.

1. Give reasons for not cutting a tree.

2. Give reasons why trees are cut.

3. Do you think the trees that do not give fruits should be cut?

4. Do human beings alone have rights over the trees? Discuss.

Vocabulary

Tick (✓) the most appropriate meaning for each of the following words in bold.

1. Monpi and Tinky were **enthusiastic** about cutting the Jamun tree.
 - a. fascinated
 - b. excited
 - c. crazy
 - d. delighted
2. They **marvelled** at the discipline with which ants toiled.
 - a. were curious
 - b. became thoughtful
 - c. mocked
 - d. wondered
3. Jonak said it is **obvious** that we cannot cut the tree.
 - a. true
 - b. well known
 - c. clear
 - d. possible

Grammar

I. Subject and predicate

Read the sentences.

- a. **A pair of squirrels** came regularly to nibble at the fruits.
- b. **Honeybees** filled the air with their buzzing.

The part of the sentence which is in bold is the subject of the sentence and the part which is underlined is the predicate of the sentence. As you can see, the subject can consist of one or more than one word and it is the doer of the action. It generally precedes the predicate. The predicate consists of more than one word. It tells about the subject.

A. Identify the subject and predicate in each of the following sentences given in the passage and write them in the table below.

The syrupy sweetness of the Jamuns invited other visitors too. A pair of squirrels, who lived in a nearby bamboo grove, came regularly to nibble at the fruits. Scores of beautiful bluebottles flitted around the tree settling every now and then to drink nectar from the fruits. Honeybees, who seemed to be forever busy, filled the air with their urgent buzzing. Ants arrived in great numbers, marching in straight lines to carry off the fruit which had fallen onto the ground. The children would spend hours watching the ants.

S.No.	Subject	Predicate
1.	The syrupy sweetness of the Jamun	invited the visitors too.
2.	A pair squirrels who lived in a near by bamboo grove.	
3.		
4.		
5.		
6.		

B. Complete the following sentences with appropriate subjects or predicates.

1. The people living in the remote area of Chhattisgarh _____
2. _____ is unknown to me.
3. Chhattisgarh _____
4. The Bihu festival _____
5. In democracy, _____ elect the government.

II. One and Ones**Read these sentences.**

- a. Were there little ones in the nest?
- b. It takes years and years for a tree to grow but to cut one down takes just a few hours.

We use 'one' (singular) and 'ones' (plural) to avoid unnecessary repetition. They are therefore generally pronouns.

We also use 'one' and 'ones' after *which* in questions.

Examples

You can recite a poem. Which *one* do you choose?

There are many books here. Which *ones* are yours?

Complete the dialogues given below:

Q: How old are your children?

A: The younger _____ is four and the older _____ is seven.

Q: Would you like a new model of mobile?

A: Certainly. The new mobiles are much lighter than the old _____.

Q: What type of car do you want?

A: I don't mind what kind of car it is. I just want _____ that gets me to office.

Q: What do you want to buy?

A: I need some new colour pencils. The _____ I have at the moment are broken.

III. Use of 'There'

Introductory 'There'

There is a nest with two young hawk-kites here.

There is no firewood in the house.

"No firewood in the house" or "a nest with two young hawk-kites here" are phrases. So, when we make sentences the we add 'There' in the beginning. this is known as an *Introductory There*. For example:

'There would be much feasting and merriment during the festival'

Introductory 'There' can be used when the subject is not defined and the verb phrase contains *be*. Here are some examples.

There *were* peanuts in the squirrel's home.

There *is* no water in the well.

Introductory There goes with:

1. Singular or Plural verbs

There is no place like home.

There are no players in this feat.

2. Quantitative statments

There are lots of questions to be answered.

There is a postoffice and a small church in the corner.

3. Collective phrases

There is a whole crowd of participants.

'There' as an adverb of place.

Find out such sentences in the story. You will also notice another kind of 'there' in the story, which is an adverb of place, as in the following sentence.

It wasn't easy getting there, but he managed it.

The underlined 'there' is an adverb and it indicates location.

- A. Indicate which function of ‘There’ occurs in the sentences below: ‘Adverb of place’ or ‘Introductory’.**

Sentences	Adverb of place	Introductory
<p>a. There is always someone who is naughty in the class.</p> <p>b. There is the postman. Let me see if he has anything for me.</p> <p>c. There were two of them, two full grown little fledglings.</p> <p>d. There was once a little girl called Alice.</p> <p>e. We went there on foot.</p> <p>f. I saw him standing there.</p> <p>g. There was a long silence after the speech.</p> <p>h. Put your books on the table there.</p>		

- B. Rewrite the sentences with the introductory ‘There’.**

Original sentences	Using introductory ‘There’
a. A lady is waiting to see the Principal.	
b. No body was in the room.	
c. Squirrels are in the other tree.	
d. Payal’s car is in the garage.	
e. Your dinner is on the table.	

Writing

- I. Ricky, Jonak, Monpy and Tinky are children in the story ‘The Jamun Tree’.

The month is January. The Bihu festival is fast approaching. They are talking about making a *mejhi*. As you have read the story, dramatize their conversation into a play. The beginning has been given here.

Ricky: Let us build a champion *mejhi* this year.

Jonak: Yes, yes. A big *mejhi*.

Tinky: The biggest in our neighbourhood.

Monpi: Where will we get so much wood? Father will buy some but that will be just enough for a tiny *mejhi*.

Tinky: That's true, mother_____

- II. That night as the children got ready to go to bed, Jonak said, "We may have a small *mejhi* this year but I'm glad we didn't cut the Jamun tree." The others nodded happily.

That night Ricky dreamt that he had already chopped down the trunk of the Jamun tree.

Imagine yourself as Ricky and write a letter to your grandmother, who lives in Kolkata, telling her how sorry you were for what had happened. You may begin your letter as below.

Dear Granny,

I woke up suddenly last night because I dreamt I had cut down the Jamun tree. I had chopped only once, and the big branch was hanging down. How I wish I could put it back again!

Dearly yours

Ricky

Speaking

Organise a speech competition in your class. Prepare a few topics related to environment. Divide the class into five groups. Ask a representative from each group to come and pick a topic from the box. Now take it back to the group, discuss and speak before the class on the topic.

Here are some suggested topics :

- If there were no trees with fruits
- Friends of the environment
- Why rivers don't like garbage thrown into them
- The tree we like most
- Advantage of trees in your backyard
- Water crisis in your neighbourhood
- Are mountains and valleys useful?

Study Skills

Study the following table, which shows district-wise variations of forest coverage, types of forests, and percentage of forest cover in relation to the total Geographical Area (G.A.).

District-wise Forest Cover (Sq. km.): Year 2011

(Source: FSI Published report year 2011)

*Change figure are based on comparison of 2011 assessment with that of 2009 after incorporating interpretational changes)

Study the table and answer the following questions.

1. What is the total forest cover area?
2. What is the total dense forest area?
3. What is the moderate forest area?
4. What is the open forest area?
5. What is the non-forest cover area?
6. Which district has the highest forest cover area?
7. Which district has the lowest forest cover area?
8. Which district has the highest scrub area (an area with low trees & bushes with very little rain)?
9. What does the negative change indicate?

10. Why do Durg and Janjgir Champa have the lowest and Dantewara and Koriya have the highest percentage of forest cover with respect to G.A.?
11. How many districts have a percentage of forest cover with respect to G.A. above and below the Grand Total?

Project Work

Identify a tree, which may be either connected to a festival or is often seen in your locality and collect the following details.

1. Name of the tree in Hindi, local language and English.

2. What are the features of the tree?
 - a. Average height of the tree (in feet)

 - b. Shape of the leaves.

 - c. Do its leaves fall? If yes, name the month in which the leaves fall.

 - d. Does the tree give fruit? What is the taste of the fruit?

 - e. What are the uses of the tree?

3. Name the animals and birds you regularly see in it.

4. Is the tree connected to any festival? If yes, name the festival.

5. Have you ever seen people cutting the tree? If yes, find out why people cut it?

Now prepare a report, using the above information.

Beautiful Blue Planet

Looking down at you, Planet-Earth,
 I remember you, as a Beautiful-Blue.
 Now, your oceans are Black-With-Oil,
 Look closely, you know it is true.
 Your Rain-Forests are all gone now
 And your ground is a sickly brown.
 What-In-The-World, have They done to you
 Pretty-Planet in the round.
 Your White-Clouds once held Fresh-Water
 Now they are filled with Acid-Rain.
 Your plains are Barren-With-Erosion
 They were once Overflowing-With-Grain.
 When did your Clouds turn such Deathly-Gray,
 Your air is Impossible to-Breathe.
 Didn't your STEWARDS-EVEN-NOTICE,
 Before they started to Gasp-And-Wheeze?
 Could the Powers-That-Be, not save you
 From such dismal end?
 You were SO-RIGHT, in killing them off.
 Now you can begin again.
 Will your next Caretakers be smarter
 And take better care of you?
 I pray they learn to be Protectors.
 We miss your Beautiful-Blue

Saalumarada Thimmakka

Saalumarada Thimmakka, an environmentalist, is one of the well-known personalities of Karnataka. She has earned recognition due to her untiring efforts in planting and tending to 284 banyan trees along the highway covering a distance of four kilometres. Her persistent work has earned several national and international awards.

She has been honoured with the prestigious National Citizen's Award of India for her selfless works in the field of environment. She also has a U.S. environmental organization called Thimmakka's Resources for Environmental Education named after her.

Saalumarada Thimmakka –A Brief History

Saalumarada Thimmakka was born in a village named Hulikal that falls under the Magadi taluk of Bangalore Rural District. She was known as Thimmakka then. She did not go to school or get any formal education.

From an early age, she worked as a labourer in a quarry near her home. She was married off to Chikkaiah, a cattle herder. The couple wanted children but were unable to get any even after 25 years of their married life.

One day, the husband-wife duo decided to plant trees to overcome the sadness and empty feeling of their lives. That was around 50 years ago. From there started a journey of untiring love and selfless service of an ordinary couple towards an extraordinary mission: a mission to raise as many trees as possible with love and care and as their own children.

Her journey to become Saalumaraada Thimmakka

Thimmakka and her husband decided to plant trees along the roadside and they selected the road to the next village, Kudur to fulfill their plans. This particular road was one that did not have a single tree and caused immense hardship to the travelers on the dry hot days.

They started grafting saplings from Ficus (banyan) trees as there were plenty of Ficus trees near her village. They grafted ten saplings in the first year and planted them along a stretch of 4 kilometres on the road that led to Kudur. They increased the number to 15 in the next year. They continued with their efforts and increased the number of saplings with each passing year.

They not only planted the saplings, but also tended to the young saplings. Each morning they started from their home with four pots filled with water and watered the saplings. When the pots emptied out they refilled them from the nearby ponds and wells and continued watering the saplings while covering the whole stretch on feet and returned home doing the same thing.

They treated the saplings as their own children and each day followed the same routine. They also protected the saplings from the grazing cattle by fencing them with thorny shrubs. Their tireless efforts began to bear fruit when the saplings grew into large and strong trees.

The couple planted the saplings mostly in the monsoon season so that the plants would get the rainwater for their growth. The couple planted more than 300 trees in total and today the asset value of the trees stands at more than 1.5 million rupees. Thimmakka's husband passed away in 1991 but she continued with her mission alone and undaunted. The Government of Karnataka has taken over the management of the trees now.

Thimmakka was referred to as Saalumaraada Thimmakka after her work got popular among the people. Saalumaraada means a row of trees in Kannada language. She was given the name to honour her dedication towards planting the saplings and preserving the environment despite the numerous hardships that she and her husband had to face along the way.

Other Social Activities of Thimmakka

Saalumarada Thimmakka did not stop at only planting trees. She got involved in various social activities like construction of a tank to store rainwater for the annual fair of her village. She has plans of building a hospital in her village and has set up a trust for the purpose.

She is an active crusader for spreading the message of afforestation. Her simple philosophy of life is that every person on this earth must leave behind some asset for humanity.

She still lives in economic crisis and just manages to somehow make a living from the various awards and a monthly pension. But this has never managed to kill her spirit or her passion for doing good work for humankind.

Awards and Recognition for Thimmakka

Saalumarada Thimmakka is the idol of every environmentalist today. She has shown the world how one illiterate woman can make a huge difference to the society through her hard work and patience.

She has been honoured with titles like Vanamitra, Nisargaratna, Vrikshapremi and Vrikshasri. For her uncompromising efforts towards saving the environment she has been conferred with several awards and citations including National Citizen's award 1995, Honor Certificate from the Women and Child Welfare Department, Government of Karnataka, Vishalakshi Award by Art of Living Organization and the Certificate of Appreciation from the Indian Institute of Wood Science and Technology, Bangalore.

Comprehension

1. What details about the following do you get in the passage?

2. “From there started a journey of untiring love and self less service of an ordinary couple towards an extraordinary mission : a mission to raise as many trees as possible with love and care and as their own children.”

Identify the description in the lesson that talks about Thimakka’s

- untiring love.
- ambitious and uncommon mission.
- self and her husband as ordinary couple.
- selfless service.

3. Choose the correct answer.

- i) The village Kudur was selected by Thimmakka to plant trees along the road side because
- a) it was near their home.
 - b) it had a broad road.
 - c) there were no trees on that road.
 - d) the weather in Kudur was hot.
- ii) The saplings were watered
- a) from the wells and ponds nearby.
 - b) from their home alone.
 - c) by the water tanks from the municipality.
 - d) by rain water only.
- iii) Thimmakka has set up a trust to fulfil her plans because
- a) she cannot do all the work alone.
 - b) she doesn't possess the money required.
 - c) her main aim is to protect the trees that she has grown.
 - d) many other people and social activists work with her.
4. One of the reasons why Thimmakka elected banyan saplings to be planted on the roadside was

The banyans grow into
huge shady trees

Fill in the bubbles with other possible reasons.

Vocabulary

1. *Saalumarada* is a Kannada word which means 'a row of trees'. Find out the meanings and local language equivalents for the words given below:

Words	Meanings	Local language equivalent
Ficus trees	The banyan or fig trees	
Taluk		
Monsoon		
cattle		

2. The word 'afforestation' is preceded by a prefix 'af' to give a positive meaning to the root word 'forestation'. Complete the table below by adding an appropriate prefix to each word. Find out how it influences the meaning of the word. One is done for you.

Prefix	Root word	New word	Positive/negative meaning
Af-	forestation	afforestation	positive
	active		
	sure		
	difference		
	ordinary		
	tiring		
	compromising		

3. (i) 'Prestigious' is an adjective that is often associated with 'awards'. Find out adjectives from the lesson that you can associate with the following nouns.

- | | |
|-------------|------------|
| a) hardship | b) courage |
| c) patience | d) love |
| e) crisis | |

(ii) Now add two more adjectives that can be used to describe the above nouns.
e.g immense hardship

(iii) List five words from your school environment that take the suffix '-ship'.

Grammar

1. Not only-but also

Consider the following sentences.

1. They not only planted the saplings, but also tended to the young saplings.
2. Thimmakka not only planted trees, but also got involved in various social activities.

The underlined words in the above sentences are used as linkers to express additional ideas.

Imagine Thimmakka talking to the children of the village Kudur, telling them how she cared for trees after she had planted them. Use not only-but also to join her ideas.

<i>Amma, what did you do when you grafted the saplings?</i>	<i>We wrapped soil around the saplings We kept them moist.</i>
<i>Did you put tree guards?</i>	<i>We put thorns around them. We checked that they were not drying up.</i>
<i>Do you know trees you planted even now?</i>	<i>Yes, I know all of them. They also know me.</i>
<i>Do you know the animals and birds on the trees too?</i>	<i>I go to the trees everyday. I sit under the shade for many hours, so some of the birds are my friends.</i>

2. Use of 'despite' and 'in spite of'

She was given the name to honour her dedication towards planting the saplings and preserving the environment despite the numerous hardships that she and her husband had to face along the way.

'Despite' means 'even though'. It is the opposite of 'because of/due to' and can be used with a noun/noun phrase. In the sentence given above, it is used before the noun phrase 'the numerous hardships'. It can also be used before a gerund as in:

Despite not reaching the station on time, he managed to board the train.

‘In spite of’ means exactly the same thing and is used in the same way as ‘despite’
For example:

He had problems in English in *spite* of hard work.

He stood first in the class test despite not doing much work.

Both ‘despite’ and ‘in spite of’ are synonymous. ‘Despite’ is a little more formal.

Describe the great work Thimmakka did even though she had many hardships to face in the initial stages. Use *despite/in spite of* to begin the narration. Make meaningful sentences according to the passage from the given table.

Example : Despite her work at the quarry, she watered the plants every morning.

Despite	her hard work at the quarry their poor economic conditions knowing not an easy task	,	she is as simple and humble as ever. she watered the plants every morning. worried about storing water for the village.
In spite of	her other domestic work all the awards and honour she received		decided to plant shady trees along 4 kilometres. bought saplings and grafted them.

- II. Read an extract from the poem 'My Tree' by Garnet Engle carefully and answer the questions that follow :

MY TREE

O Tree, so big and stout and strong,
You've lived so very, very long;
A hundred years or more, I'm told,
And yet you're not so very old.

A hundred secrets you could tell
Of children whom you love so well,
Who came and sat beneath your shade
Or underneath your branches played.

Garnet Engle

1. Read the poem aloud and pick out the rhyming words from the circle and write in the space given.

(Rhyming words are those words which end with the same sounds.)

Example : Stanza 1 – Strong – Long, Told - old

a. Who is 'T' in the poem?

.....

b. Whose secrets could the tree tell?

.....

c. Who sat beneath the tree?

.....

d. Who played under the tree?

.....

7. Match the words in column 'A' with their opposites in column 'B'.

A	B
big	unfriendly
stout	young
strong	short
long	weak
old	thin
friendly	small

8. Read the paragraph and fill in the blanks with words from column B of the table given above.

The tree was big and strong when it was young. As it grew older it became _____ and _____. The children loved the friendly tree but did not like the _____ snakes that lived beneath it.

9. Make a list of verbs (action words) that occur in the poem.

....., , , ,
 , , , ,
 , , , ,
 , , , ,

10. Complete the following table with appropriate forms of verbs.

I	II	III
-	lived	-
tell	told	-
-	came	-
-	sat	-
-	played	-
-	built	-
-	kissed	-
touch	-	-
-	-	grown
visit	-	-
-	changed	-
find	-	-
love	-	-

Note to remember:

Verbs that end with 'ed' (lived, played, kissed, changed) are called regular verbs. Other forms of verbs which don't have '- ed' endings are called irregular verbs (told, came, sat, built, grown):

11. Given below is a table containing some regular and irregular forms of verbs.

I	II	III
know	knew	known
wash	washed	washed
speak	spoke	spoken
write	wrote	written
run	ran	run

Now, identify regular and irregular forms of the verbs from the list given below and put them in correct columns in the table below.

know, drink, write, comb, wash, speak, type, open, close, run, sing, give, touch, live

reggular	Ireggular

12. Fill in the blanks with the correct form of the verbs given in brackets.

Long ago, a mynah invited (invite) a snail to her daughter's first birthday party. "Don't be late", she (chirp) and (fly) away. The snail (set off) the next morning and (begin) walking towards the mynah's nest. He (walk) and (walk) day and night. At last he (reach) the mynah's nest. He (see) the celebration. The words of noun category are used as either singular or plural.

adding's'	adding'es'	changing 'y' to 'i' and adding 'es'	changing 'f' to 'v' and adding 'es'	changing the vowels	nouns that remain the same	by adding 'en'
boy-boys tree-trees	box-boxes branch- branches	baby-babies fly-flies	leaf-leaves life-lives	foot-feet mouse-mice man-men	sheep- sheep deer-deer	child- children ox-oxen

Read the poem and pick out the singular and plural nouns.

Singular	Plural

There was a large forest with tall grasses in which many different animals lived. Some were small. There were field mice, and wild cats, as well as deer, and wild sheep. There were many tiger, wolves and foxen. Near the forest was a farm which had oxen, bull and cows. There was an orchard next to the farm in which grow mango, bananas and orange. The farmer had many childs who helped him on the farm. On his farm, various different vegetables like potato, tomato, onion and bean were grown.

This image shows a full page of white paper with horizontal dotted lines, typical of primary school writing paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

15. Read the following sentences:

Raju is as tall as a lamp post.

The children were as busy as bees.

The underlined expressions are examples of **similes**.

Now using words from circles A and B make similar similes. One has been done for you.

A

small, big, white,
tall, strong, heavy,
red, beautiful,
cold, fat

B

milk, palm tree,
plant, ice, fairy,
rose, lion,
elephant, palace,
iron

- | | |
|------------------------|---------|
| a. as small as a plant | b. |
| c. | d. |
| e. | f. |
| g. | h. |
| i. | j. |

16. Complete the following sentences by using similes you have made in the above exercise.

- This flower is as red as a rose.
- This tree is as a palm tree.
- This child is as a plant.
- This paper is as milk.
- This girl is as a fairy.
- He is as a lion.
- This machine is as an elephant.
- This house is as a palace.
- This water is as ice.
- This plate is as iron.

(You are free to use the similes in your own sentences)

For the teacher:

Read aloud the poem given in the appendix and ask students to do the following tasks:

- 17 a. Listen to the poem carefully and circle the names of the birds/animals that appear.**

squirrel, snail, bird, tiger, mouse with mouselings, porcupine, cub of bear, toad, katydid, crow, parrot, snake, bats, sparrows

- b. Your teacher will read the poem once again. Fill in blanks with adjectives that you listen in the poem**

_____ little squirrel
 _____ porcupine
 _____ tree toad
 _____ mouselings

- 18. Work in pairs and role play the following dialogue.**

Tree : “Stop! stop! Please don't cut me.”

Woodcutter : “Why not?”

Tree : “I am a Neem tree. I give you cool shade to protect from the sun. I give you medicinal bark and fruit. I make the air pure.”

Woodcutter : “Oh! You are right, dear Neem tree. I won't cut you and always protect you from getting cut.”

- 19. Each of the trees (given in the box) the wood cutter wants to cut has some use for man. This is a whole group work. Every student will represent one tree and talk about how he is useful.**

I am a rubber tree. I produce the rubber used for making many useful daily items like – water pipe, eraser, tyres and tube, wire insulation, seals and toys.

The Race

Tarun was a mediocre student. His grades could barely satisfy his parents. And, he was not a good singer, dancer, painter or even an actor. He always thought of himself as the black sheep of the family. His elder brother, who was pursuing a degree in engineering from a reputed college always made the family proud. But Tarun was never good at anything like that.

However, he was blessed with the strength of a great athlete; he was an excellent runner. He would run for hours, be it day or night. Whenever he felt sad and lonely, he exhausted himself by running, thus releasing all his pent-up emotions. At times he would miss his school bus and would then run to the school, which was five miles away from his home! He just had one dream- to become the fastest runner in the world. Tarun did not know how to achieve his dream. On one hand, his parents hated his running and wanted him to concentrate more on his studies, which he never did. On the other hand, he belonged to a middle class family, and Tarun knew that to achieve his dream, he needed an intensive training, the amount which was well beyond his family's reach.

When Tarun failed in his terminal examinations, his father was very angry with him. His friends too made fun of him. It was a day he wanted to erase from his life and so he took to running. He ran all around the park. The sun beat down to check his rage but nothing could stop Tarun. After about an hour, he was fully exhausted and his fury having subsided, he threw himself on a bench and started to pant.

Suddenly he heard a voice. "What is it, son?"

Tarun looked to his left and there sat a man of about sixty.

"I failed in two subjects," Tarun replied in a depressed tone.

The man smiled sympathetically and said, "Life is full of ups and downs, boy. By the way I am Ram Narayan, and you are one of the best runners I have ever seen."

"Ram Narayan? Raaa...m...Narayan! Are you the same Ram Narayan who won an Olympic medal in the 400 metre race in the 1960s?" Tarun could not hide his excitement.

"Yes," came the reply. Tarun was dazzled.

“Son, I have been watching you for the past 45 minutes,” continued Ram Narayan, “and, I see a good future in you.”

Tarun could not help but blush.

“All you need to do is keep that passion burning in you and never give up. Have you joined some training school?”

Tarun’s smile turned to distress. “A training school is very expensive, Sir, and I am unemployed,” said Tarun, feeling happy that he could joke even in these circumstances.

But Ram Narayan seemed pretty serious, “I can train you if you want, but I have one condition.”

“What condition?” Tarun’s voice showed a sense of urgency.

“There is a race on the Children’s Day at the Nehru Stadium. Children of your age are competing there. If you win that race, I will start training you,” said Ram Narayan.

“That is no big deal,” thought Tarun. “I will, I will Sir!”, he heard himself say with complete conviction.

“Fine, boy! It is my job to get you entry in the race and remember yours to win it. Tell me, what is your name?”, asked Ram Narayan.

“Tarun...Tarun Kapoor, Sir.”

“Tarun, I will meet you here after five days to give you your participation card. All the best,” said Ram Narayan and left.

The next day brought a new ray of hope. Tarun got up early, had milk and before his mother could finish her query on what he was up to, he ran out and went to the Nehru Stadium to check the details of the race. He was very happy indeed.

Tarun started preparing with zeal. Every day he would get up at four in the morning and run ten miles. In the evenings, he would time himself according to the 1000 metre distance prescribed by the competition. He wanted everything to be perfect. He also wanted someone to back him up and so he told his mother everything.

Tarun practiced vigorously for five days, and then met Ram Narayan to collect his participation card. Tarun gazed at the piece of paper which meant so much to him. No matter what, he had to win this race. He wanted to show his father that he was not really the black sheep of the family and that; he could be good at something at least.

Then came November 14. After taking the blessings of his mother, Tarun pedalled away to the stadium. There was a huge crowd waiting to go inside. Tarun entered the office where a sign board read 'Participants only' with his heart beating faster every second. Inside, there were about fifty participants waiting for the race to begin.

Someone patted him on the shoulders. "Hello, Tarun!" It was Ram Narayan. "All the best!" he said affectionately.

Tarun smiled but did not say a word.

All the participants lined up, each one hoping to win the race. Each one of them had his family and friends on the stands to cheer for them. To his amazement, Tarun saw his mother in the stands. The fear in his eyes changed to confidence.

The whistle blew and all the participants started off with all their might. They were all determined to be the winner of the race. In the lead was the fastest of them all, Tarun. Seeing himself ahead of everybody, Tarun felt very proud of himself.

On the track there was a shallow path. As he was running fast, Tarun did not notice that and he slipped. Breathing fast he saw the other kids going past him. He could not be a

loser, today and so without wasting a second, he got up to run once more. Being quick Tarun overtook a few kids ahead of him. But as fate would have it, he slipped again.

What was happening to him? He could not bear it. He looked into the crowd and saw his mother. She was saying something to him: ‘Get up son, get up and run.’

So Tarun got up once again. He was among the last few. But he did not give up. Once more he overtook some children. Since he was fretting a little too much, he fell a third time!

Tears were rolling down his cheeks. How will he get into Ram Narayan’s training school now? How will he prove to his parents that he was talented? He was the last kid on the track now.

He turned his eyes towards the stands. Then he heard Ram Narayan screaming from somewhere, “Come on, Tarun, run!” And so he got up a third time. This twelve year old determined boy, who was last on the track, got up and ran with all the strength he had.

The crowd was cheering for Pawan, the boy who had won the race. But to Tarun’s surprise, there was louder applause when he crossed the finishing line last. The audience cheered for his determination and his valor for never giving up.

He bowed his head with shame and said to Ram Narayan, “I am sorry, Sir, I lost.”

“No, son, to me you have won the toughest race, the race of your life. You got up and started afresh each time you fell. You are a real-life hero. Your training starts tomorrow.”

Tarun could not believe his ears. Tears filled his eyes again. He smiled at his mother who hugged him and said, “You are the best son in the world.”

Grammar

Look at the sentences from the lesson.

"I can train you if you want." *"If you win the race, I will train you."*

Each of these sentences has a clause starting with 'if'. These are called conditional clauses. These are known as open/fulfilled/ factual/ real conditional clauses. If the condition is likely to be fulfilled, then the action would take place in future.

There are other conditions which cannot be fulfilled. These are either imaginary or impossible conditions.

Compare these sentences.

	Possible condition/ fulfilled	Impossible condition/ unfulfilled	Imaginary condition/ hypothetical
1.	I can train you if you want.	I could have trained you if you had wanted.	I could train you if you wanted.
2.	If you win the race, I will train you.	If you had won the race, I would have trained you.	If you won the race, I would train you.
3.	If it rains, we will not go out.	If it had rained, we would not have gone out.	If it rained, we would not go out.
4.	If you want help, I can ask my mother to help you.	If you had wanted help, I could have asked my mother to help you.	If you wanted help, I could ask my mother to help you.
5.	If we work hard, we may pass.	If we had worked hard, we might have passed.	If we worked hard, we might pass.
6.	If you are a bird, you will fly.	If you had been a bird, you would have flown.	If you were a bird, you would fly.

I. Write the verbs of these sentences and identify the tense of the verbs.

	Possible condition	Impossible condition	Imaginary condition
1.	Main : can train	Main : could have trained	Main : could train
	If : want	If : had wanted	If : wanted
2	Main :	Main :	Main :
	If :	If :	If :
3	Main :	Main	Main :
	If :	If :	If :
4	Main :	Main	Main :
	If :	If :	If :
5	Main :	Main :	Main :
	If :	If :	If :
6	Main :	Main :	Main :
	If :	If :	If :
General	Main : + tense	Main : + tense	Main : + tense
	If : + tense	If : + tense	If : + tense

II. Fill in the blanks with the correct forms of the verbs given in brackets.

“If you wish to become a good athlete you ——— (have) to practice hard. Training will work if you ——— (know) how to use it. If you get up early and ——— (run) at your top speed, you ——— (see) that you gain pace quickly. If you have determination, success ——— (follow). And if you ——— (try) hard, you can overcome all hurdles. If your family ——— (boosts) you up, you will get success in earnest. I believe if you ——— (have) less money you will never feel the lack of it.”

Look at these sentences. These sentences have a negative ‘if- clause’.

If you don't attend school, you cannot join OSCAR.

If you don't study, you won't have a future.

These can also be written as

Unless you attend school, you cannot join OSCAR.

Unless + affirmative verb = if + negative verb

Unless you study, you won't have a future.

III. In your notebook rewrite the following paragraph using ‘unless’ in place of ‘if’. Make changes wherever necessary.

If my parents don't give permission, the sports teacher won't enroll me. And if I don't go to school, he won't teach me to play football. Moreover my mother says that if I don't take Radha with me, she won't allow me to join any sports team.

Writing

Tarun is now 23 years old. He has won many medals at the national and international level sports tournaments. He is now a pride for his teachers and friends. The school has invited Tarun as the Chief Guest on Children's Day. The Principal has given you an incomplete draft of his speech.

Complete the Principal's speech.

The Peaceful Game

I like to think chess is a courteous game,
 I play it with family and friends,
 I like to think chess is a peaceful game
 Nobody gets hurt when it ends.

I never distract my opponent,
 I don't want to act like a pest,
 I hope they behave in the very same way,
 So both of us play at our best.

I know chess is not really gentle,
 It's more like a war or a fight,
 I always shake hands at the start and the end,
 So both of us play at our best.

On the board we're enemies,
 Off the board we're friends,
 On the board there is never peace,
 But that is just pretend.

On the board we're enemies,
 Off the board we're friends,
 On the board there is never peace,
 But off the board I hope for peace that never, never ends.

I like to think chess is a courteous game,
 I play it with family and friends,
 I like to think chess is a peaceful game
 Nobody gets hurt when it ends.

Ashok Rathod's Football OSCAR

It's early morning on a Sunday and an excited group of boys play football in the Back Garden, a large ground in Colaba, South Mumbai. Both teams are wearing colourful jerseys printed with logos that say: OSCAR-Education With a Kick.

At 23, Ashok Rathod, short and curly haired, is the oldest of the players. Unlike the others he's also yelling instructions on how to kick or pass and egging the others on- Ashok isn't just playing for his team, nor is he the fastest or the most skilful footballer here, yet the boys in both teams follow his lead and take directions from him.

Today's first goal-scorer is Anil Chauhan. Tall and well built, he's from nearby Ambedkar Nagar, a sprawling slum colony of about 12,000 people. Anil had, like many poor urban kids, dropped out after a few years of primary schooling. Years later, when he started working as a housekeeper in a bank, he realized his mistake.

"I didn't know how to read or write and couldn't even sign my name," says Anil, who enrolled at a night school last year because of Ashok Rathod, his neighbour, who plays football with him thrice a week. "It doesn't matter that I'm only in class five and 22 years old," says Anil.

Many of the other players too, went back to school because of Ashok, who started these football sessions five years ago.

When Ashok was a child, his father Shankar Rathod, a fisherman, regretted that his daughter and older son had dropped out of school. At one point Ashok too wanted to quit, but his father insisted that he continued, much against the neighbourhood norm. Ashok talks of how little value his peers and many of their parents placed on education.

"I saw boys regularly drop out of our municipal school," recalls Ashok. "Some left during a morning interval and never returned. As for the girls, a good many don't attend school anyway." The dropped-out boys used to hang out at the nearby Sassoon Docks, Mumbai's biggest fish market. They'd steal or pick up fish that had fallen from baskets, to sell and make easy money.

"And whenever or however they brought in some cash," Ashok explains, "the parents considered it clever." Worse, Ashok watched many of those boys squander these ill-gotten profits on drink, cigarettes and gambling. In 2006, after finishing high school, Ashok got a job with Magic Bus, a Mumbai NGO, which sent him to the city's poorer

areas to mentor children. That's how he realized that team-sports, particularly football, forged friendships, and called for discipline. It also had, overall, a positive effect in the children's lives. Why not do the same for the boys in my neighbourhood? Ashok thought.

He offered to teach football to a few boys he knew. In exchange, he told them to promise not to miss classes. On a Sunday in October 2006, he got a ball and invited the kids to play. Eighteen boys turned up. Ashok called his group OSCAR or the Organization for Social Change, Awareness and Responsibility.

Ashok, who learnt about football at Magic Bus, began teaching them the intricacies of the game. In between, he'd also slip in stories about his childhood friends who'd dropped out of school. "If you want a future, you've got to study," he urged over and over again, when they met to play on weekends. "Stay in school. I don't want you to end up like them!"

Meanwhile, Ashok was nervous about telling his family about OSCAR and his football sessions. What if his father objected? Since he was doing his Higher Secondary and working as well, Shankar Rathod would expect his son to spend his weekends catching up on school work; ironically, on the same days when Ashok was telling younger boys to study.

There were other problems as well. "Even if a boy wanted to return to school, it was often difficult convincing parents," he says. "In many cases, I had to go over and persuade them, often taking others with me." But once, after a few football players failed their final exams, their parents blamed Ashok. Football had become a distraction, they complained, as if nobody in their slum had failed before. "Some of the parents gathered outside my home, and shouted abuse," he says. "It was scary."

That's when Ashok's father came to know about it all. He warned his son to be careful. But the incident only made Ashok more determined. He enlisted the help of two NGOs to have those boys tutored for free in English, Hindi and Mathematics. These NGOs also helped Ashok get more kids back in school.

Besides a few supportive NGOs, OSCAR gets individual donors to sponsor his footballers, who are now part of eight teams in all age groups of the Mumbai Football League. Every child on an OSCAR team has to abide by one rule: They have to attend school regularly and stay there. “And OSCAR doesn’t want just great football players,” says Ashok. “We want good human beings.”

Today, five years after that first game, about 150 boys from Ambedkar Nagar and two neighbouring slum communities are part of the OSCAR Foundation’s football program. Thrice a week, for two exciting hours, two coaches train these youngsters. Ten dropouts, including Anil, have so far returned to school, and it is hard to figure out how many are staying on because of Ashok and the power of football.

In 2009, Ashok won a CNN-IBN “Real Hero” award and with it, a cash prize, after taxes, of 3.45 lakh. “That’s when my parents realized I was doing something worthwhile,” Ashok smiles. “My father said he was proud of me.” Ashok invested some of the money in a fixed deposit for OSCAR Foundation and registered it as a trust. He also bought a computer for the kids, purchased more football equipment and rented a tiny room in which some of the children receive extra tuitions.

Happy with the way things are going, Ashok has lately been shifting his focus on girls as well, offering to teach them football. “Having seen my boys, parents are actually sending their girls to play.” Over the past few months, 20 girls between the ages of 10 and 16 have been learning the game through OSCAR and nearly all of them now attend school regularly.

Slowly, but surely a change is taking place. Inspired by Ashok, a few more football-and-school group, modeled on OSCAR, have sprung up in Ambedkar Nagar and its two neighbouring slums. Ashok Rathod is scoring higher goals.

Meanings in context

yelling	:	shouting
egging on	:	encouraging
sprawling	:	stretched out, big
intricacies	:	complexities
squander	:	to waste money in a foolish manner
regretted	:	felt sorry; distressed

Comprehension

I. Answer the questions given below.

1. Why do you think all the boys in both teams followed Ashok Rathod?
2. Give a brief sketch of how a person (in the lesson) realized the mistake he made in his life and how he corrected it.
3. What did the students do after they dropped out from the municipal school?
4. What made Ashok form the OSCAR group?
5. "It was scary". What was scary in the whole episode?

II. Number the paragraphs in the text passage. Now indicate the paragraphs where you can find the following ideas.

- i. Ashok taught his followers the intricacies of football.
- ii. Ashok deposited all his award money in fixed deposit for OSCAR foundation.
- iii. Although Ashok is not the most skilful player, every player accepted his directions.
- iv. When Ashok's followers failed the exam, the parents blamed Ashok.
- v. Because of Ashok and the power of football, many kids have returned to school and many are staying there.
- vi. Ashok's neighbourhood placed no value on education.
- vii. Ashok was responsible for Anil Chauhan resuming studies.
- viii. Ashok inspired many football players in the Ambedkar Nagar slums.

Vocabulary

I. Match the phrases in column 'A' with their synonyms given in column 'B'.

- | A | B |
|----------------|--------------------------|
| i. drop out | : insert |
| ii. pick up | : take up |
| iii. slip in | : work out |
| iv. figure out | : stop doing an activity |

II. Notice the following acronyms from the text.

- | | | |
|-------|---|--|
| OSCAR | → | Organization for Social Change, Awareness & Responsibility |
| NGO | → | Non Government Organization |
| CNN | → | Cable News Network |
| IBN | → | Indian Broadcasting Network |

In an acronym, the first letter of each word is taken to make a short name.

Both the sentences have a clause starting with 'that'. In the first sentence if we ask the question 'what' to the verb, we get the specific answer. What did the fisherman regret? 'his daughter and older son had dropped out of school.' Here 'that' introduces a noun clause which is the object to the verb regret.

In the second sentence, answer to the questions "What did they steal or pick up?" The answer is "—fish that had fallen from baskets." Here 'that' is a pronoun that describes the noun 'fish'. So in this sentence 'that' introduces a relative or adjective clause.

Say whether the 'that' clause in the sentences below are noun or relative clauses.

1. My school team that was selected for the national games had opted for red jersey.
2. The footballer said that he had been working hard to reach his goal.
3. That students were dropping out of school, was the main problem.
4. The Stadium that is being built in front of my house will be completed by next month.
5. The teacher found that his students were showing interest in playing kabaddi.
6. That the girls won the match, was a miracle.
7. The sports equipments that the boys took are to be recorded in the register.

India's Battle to Ban Chewing Tobacco

In September 2010, Mahadev Prasad Sharma, a potato and onion vendor from the eastern Indian state of Bihar, was diagnosed with stage four mouth cancer. In Mumbai, where he went for surgery, the central portion of his lower jaw was removed.

Less than three years later, the cancer returned, this time as two marble sized, yellowish lumps on the inside of his left cheek. When his surgeon, Pankaj Chaturvedi, told him that the only treatment was another surgery, the 57 year old man started to sob.

He asked for the operation to be put back a month as his daughter was studying for her computer course exams and he didn't want to give her the bad news.

Mr. Sharma's cancer is caused by chewing 'khaini,' a mixture of tobacco and lime that is popular in Bihar, said his surgeon Mr. Chaturvedi, Associate Professor and head and neck surgeon at Tata Memorial Hospital in Mumbai.

Around 14% of Indian adults smoke cigarettes and ‘beedis’ (hand-rolled cigarettes), but nearly 26% use smokeless tobacco, including chewing tobacco, according to the Government of India and World Health Organization Global Adult Tobacco Survey of 2009-2010.

“Approximately 85% of the oral cancer patients I treat are either smokers or tobacco chewers,” Mr. Chaturvedi said, “After years of treating thousands of patients, I decided to take action to stop people from using a substance that is proven to cause cancer,” the surgeon added.

He launched a campaign called *Voices of Tobacco Victims* in 2008 to advocate for more stringent tobacco control in India. The campaign empowers cancer survivors to tell their stories to influence policy makers and raise awareness among other tobacco users about the damaging effects of tobacco on health.

The campaign’s greatest success has been to ban the manufacture, storage, distribution and sale of ‘gutka,’ a form of chewing tobacco commonly consumed in India.

The opportunity to advocate for the gutka ban arose with the *Food Safety and Standards Act of 2011*, under which the central government prohibited the use of tobacco and nicotine as ingredients in any food product.

Gutka is a crushed preparation of tobacco and ‘paan masala,’ a mixture of areca or betel nut, sugar, spices and perfume.

Under the FSSA, gutka can be categorized as a food product, and therefore should not contain substances injurious to health, like tobacco.

The implementation of the FSSA lies with the health ministry of each state. Voices of Tobacco Victims directed its efforts to have the gutka ban implemented at state legislatures and in April 2012, Madhya Pradesh became the first Indian state to ban gutka, said Mr. Chaturvedi.

With the support of other doctors and cancer survivors, he launched similar campaigns and filed public interest litigations in other states and union territories. This month, Karnataka became the last Indian state to make the manufacture and sale of gutka illegal.

The ban’s effect on stopping Indians from chewing tobacco is limited. Pure chewing tobacco and paan masala continue to be sold as two separate packets that users can mix for themselves before consumption, according to Mr. Chaturvedi.

“But (the ban) has drawn widespread attention to the public health epidemic tobacco has caused. Until it was banned, gutka was marketed as a mouth freshener to target youth,” he added.

In the western Indian state of Maharashtra, the ban on gutka has been more effective than in other states because the manufacture and sale of paan masala has also been prohibited since July 2012.

“In Maharashtra, manufacturing units of gutka and paan masala have been closed and the state government has seized 16 crore rupees (\$ 2.9 million) worth of tobacco products, more than all other states combined,” said Mahesh Zagade, Commissioner of the *Food and Drug Administration* in Maharashtra.

“There are no figures for the decrease in consumption yet... but the general perception is that consumption of gutka and paan masala has significantly decreased,” he said.

However, boundaries between Indian states are porous, and paan masala that is manufactured in other states can illegally be brought into Maharashtra, Mr. Zagade added.

The Maharashtra FDA must also submit a report to the state government each year to renew the ban on paan masala. This is because it is banned under a different section of the FSSA than the one that bans gutka. Paan masala has addictive and carcinogenic properties itself, but it is prohibited because its magnesium carbonate content is above the permissible level. The Food Commissioner needs to demonstrate annually if the amount of magnesium carbonate is above the permissible level. The state ban on paan masala is up for renewal on July 19.

“Many children are as young as 12 when first exposed to gutka and paan masala... they don’t even know what cancer is, and by the time they realize it is bad for their health, they can’t stop,” said Mr. Chaturvedi.

“Once diagnosed with cancer, even if a patient stops chewing tobacco, the genetic damage is irreversible,” he added.

Patients stream into his clinic, their faces disfigured and stitches running from their lips to necks. Many have had part or all of the tongue removed and can barely speak. Pradeep Kumar Sharma, a 52 year old coalfield worker from Madhya Pradesh, has been consuming liquids through a tube in his nose since March. A patch of flesh the size of a golf ball was removed from his thigh to replace cancerous cells in his cheek.

“He’s in a lot of pain. But his children and I are in even more pain... they used to beg him not to chew gutka but he never listened,” said his wife, Durga Sharma.

The Dentist and the Crocodile

The crocodile, with a cunning smile, sat in the dentist's chair.

He said, "Right here and everywhere my teeth require repair."

The dentist's face was turning white. He quivered, quaked and shook.

He muttered, "I suppose I'm going to have to take a look."

"I want you," Crocodile declared, "to do the back ones first."

The molars at the very back are easily the worst."

He opened wide his massive jaws. It was a fearsome sight-

At least three hundred pointed teeth, all sharp and shining white.

The dentist kept himself well clear. He stood two yards away.

He chose the longest probe he had to search out the decay.

"I said to do the back ones first!," the Crocodile called out.

"You're much too far away, dear sir, to see what you're about;

To do the back ones properly you've got to put your head

Deep down inside my great big mouth," the grinning Crocky said.

The poor old dentist wrung his hands and, weeping in despair,

He cried, "No, no! I see them all extremely well from here!"

Just then, in burst a lady, in her hands a golden chain.

She cried, “Oh, Croc, you naughty boy, you’re playing tricks again!”

“Watch out!” the dentist shrieked and started climbing up the wall.

“He’s after me! He’s after you! He’s going to eat us all!”

“Don’t be a twit,” the lady said, and flashed a gorgeous smile.

“He’s harmless. He’s my little pet, my lovely crocodile.”

Ayurveda

Suman was very happy that morning. She had rightly recognized some of the important herbs that her grandmother wanted her to bring from the backyard. Dadi had many little patches of the backyard where wild herbs were cared for. There were Lycopodium, Bhringraj and Aloevera. She liked the names and wanted to see how Dadi prepared medicines from the herbs.

“Dadi, we eat so many fruits and vegetables. But how do wild plants make medicines when some people say they are poisonous?”

All plants have some special features and medical science owes the cure of many chronic diseases to the plant kingdom. Nature opens itself to Ayurveda with a cure to the chemical and biological imbalance.

“Dadi, have you studied all about Ayurveda?” Suman asked.

“I will have to study the whole of Ayurveda all my life, I have only learnt a little till now.”

“Will you tell me something about it?” Suman asked curiously.

There are several systems of medicines in the world. These mainly include: Allopathy, Homeopathy and Ayurveda. Allopathy is today the mainstream system of health care and treats the physical systems by using tried out medicines. Homeopathy is based on the doctrine of ‘like cures like’ whereby a substance that causes the symptoms of a disease in healthy people will cure similar symptoms in sick people. Ayurveda is the ancient Indian system of natural and holistic medicine. When translated from Sanskrit, Ayurveda means ‘the science of life.’ The Sanskrit root *ayur* means ‘longevity’ or ‘life’ and *veda* means ‘science.’

While allopathic medicine tends to focus on the management of disease, Ayurveda provides us with the knowledge of how to prevent disease and how to eliminate its root cause if it does occur.

“How old is this science?” Suman looked into Dadi’s wrinkled face.

“Quite old. The knowledge of Ayurveda was passed on orally for thousands of years through a lineage of sages in India until it was collated into a text,” said Dadi smiling.

“The oldest known texts on Ayurveda are the *Charaka Samhita*, *Sushruta Samhita*, and the *Ashtanga Hrudaya*. These texts detail the effect that the five elements found in the cosmic system – earth, water, air, fire, space – have on our individual system, and expound on the importance of keeping these elements balanced for a healthy and happy

life. Ayurveda places great importance on one's *pathya*, or lifestyle (eating habits and daily routine). Ayurveda also provides guidance on how to adjust our lifestyle based on the change of seasons. According to Ayurveda, each person will be influenced by certain elements more than others. This is because of their *prakriti*, or natural constitution. Ayurveda categorizes the different constitutions into three different doshas.

Yes, according to Ayurveda, each one of us has a unique mix of three mind/body principles which are responsible for our 'unique' physical, mental and emotional characteristics. These doshas are the 'governing principles' of 'Intelligence' that literally govern everything in the universe...and therefore each one of us...including you!"

"Dadi, what kind of doshas are they?" Wrong things? Suman tried to confirm.

The three doshas are known as Vata, Pitta, & Kapha. Understand these three doshas and how to influence them and you literally hold the reins of life in your hand. As the doshas govern 'everything,' if you know how to balance them, you can eliminate ill-health, create perfect balance and therefore enjoy ideal health...without any need for an external expert, doctor, guru or anyone or anything outside your own 'self'.

According to Ayurveda, everything consists of different proportions of five fundamental elements - space, air, fire, water and earth.

Vata is expressed as 'space and air' and is responsible for all 'communication and movement.' It's qualities are light, dry, changeable, quick, cold & subtle...like the 'wind.' Vata Dosha - the space and air - energy that controls bodily functions associated with motion, including blood circulation, breathing, blinking, and your heart beat. If kept in balance, it leads to creativity and vitality. When out of balance it produces fear and anxiety.'

"But Dadi, how is air, water, fire or earth felt in our bodies?" Suman looked confused.

"Listen carefully. Pitta is seen as fire and a little bit of water. Pitta governs all "energy and transformation" in our bodies and the universe. Its qualities are like fire - hot, intense, sharp, dynamic, sour/acidic, related to colour (red, orange, yellow etc). This is *the energy that controls* the body's metabolic systems, including digestion, absorption, nutrition, and your body's temperature in proper system it leads to contentment and intelligence. Losing balance can cause ulcers and anger.

Kapha is dominantly expressed as water and earth. As such it is almost the exact opposite of Vata dosha. It is heavy, slow, non-changing, sweet and moist/ oily. Kapha governs all 'structure and lubrication.' This is the energy that controls growth in the body. It supplies water to all body parts, moisturizes the skin, and maintains the immune system. It is expressed as love and forgiveness. Lacking in adjustment, it can lead to insecurity and envy".

Suman, it is interesting to know that people can be identified by their tendencies to the doshas. Dadi said, ‘Whether you go to an allopathic, homeopathic or an ayurvedic doctor, you must always go to the professional doctor if you are not well. Taking any medicine without professional advice can be dangerous.’

Meanings in context

Grammar

Passives

Look at the sentences given below.

- i. The chief guest **was welcomed** by the principal
- ii. The library **was arranged** by the students.

The above sentences are in passive. In active voice, we can write these sentences as :

- iii. The principal welcomed the chief guest
- iv. The students arranged the library

In sentences (i) and (ii) the action is more important than the doer (Passive) whereas in sentences (iii) and (iv) doer is more important (Active)

Now, consider these sentences from the text:

- a. The knowledge of Ayurveda **was passed** on orally for thousands of years through a lineage of sages in India until it **was collated** into a text.
- b. Dadi had many little patches of the backyard where wild herbs **were cared for**.
- c. Pitta **is seen as** fire and a little bit of water.
- d. Kapha **is dominantly expressed as** water and earth.

- **A passive sentence begins with the person or thing that receives the action. It must have a passive verb.**

Passive sentence : The door was painted by Ashok yesterday.

Eg. : *Active sentence* : Ashok painted the door yesterday.

- **When we change a sentence from the active voice to the passive voice, the tense of the verbs has to remain the same.**

Eg. : Pitta governs all energy and transformation. (*active voice, present tense*)

All energy and transformation are governed by Pitta. (*passive voice, present tense*)

Tense	Active voice	Passive voice
Simple Present	main verb example : give	am/are/is + past participle of verb example : am given
Simple past	main verb example : given	was/were + past participle of verb example was given
Present continuous	am/are/is + main verb with 'ing' example : is giving	am/are/is + being + past participle of verb example : is being given
Past continuous	was/were+main verb with 'ing' example : were giving	was/were + being + past participal of verb example : were being giving

- **When we change a sentence from the passive voice, we need to make sure the verb agrees with the subject in number.**

Eg.: The sages describe the three *doshas* as *Vata, Pitta, & Kapha*. (*active*)

The three *doshas* are described as *Vata, Pitta, & Kapha* by sages. (*passive*)

- **When we do not know who did the action or what was the cause of action, a passive sentence does not contain an agent.**

Eg.: The documents have been checked.

Present passive : eg.: Kapha *is* dominantly *expressed as* water and earth.

- Put the verbs in brackets in correct form to complete the sentences.**

- Our neighbour, Mrs Singh, (accompany) us to the market every Saturday.
- The small city (illuminate) by thousands of multi-coloured lights at night during Navaratri.
- It is a big factory. One thousand people..... (employ) here.
- Most of the Earth's surface (cover) by water.

- These are some instructions from a computer operating manual.**

- Link up the monitor, keyboard and printer.
- Plug in the main cable.
- Switch on the monitor at the back.
- When the light appears on the screen, place the Day Disk in Drive A.
- Push in the disk until the button clicks out.
(It takes about 30 seconds for the computer to load the programme.)
- Press the Drive button and the disk shoots out.
- Replace the Day Disk with the Document Disk.
- Press function key 7.
- Start work!

- **Change the instructions into present passive by filling in the blanks.**

First the monitor keyboard and printer are linked up. Then the _____ is _____. The monitor is _____ at the back. When the light \ appears on the screen _____ in Drive A. The disk is _____ until the _____. About 30 seconds _____ by computer to load the program. The drive button _____ and the disk shoots out. The Day Disk _____ with the Documents Disk. Finally the function key _____. The word processor is then ready to use.

PRACTICE EXERCISE - III

Link Unit : Awareness About Health

I. Read the passage given below and answer the questions that follow :

“Approximately 85% of the oral cancer patients I treat are either smokers or tobacco chewers,” Mr. Chaturvedi said, “After years of treating thousands of patients, I decided to take action to stop people from using a substance that is proven to cause cancer,” the surgeon added.

He launched a campaign called Voices of Tobacco Victims in 2008 to advocate for more stringent tobacco control in India. The campaign empowers cancer survivors to tell their stories to influence policy makers and raise awareness among other tobacco users about the damaging effects of tobacco on health.

The campaign’s greatest success has been to ban the manufacture, storage, distribution and sale of ‘gutka,’ a form of chewing tobacco commonly consumed in India.

- a. **Your teacher will read out the poem to you but she will make a few mistakes. Identify and encircle the words which are wrongly pronounced.**

A hippo sandwich is early to make
 All you do is simply fake
 One slice of beard,
 One slip of cake,
 Some mayonnaise
 One onion rich
 One hippo elephant
 One piece of string
 A dash of paper
 That ought to do it
 And now comes the problem of biting into it.

19. Arrange a debate on ' Most street food is harmful'. (*Street food is food sold by the hawkers on the roads*). Divide the students into groups. Let each group discuss the topic. The Eyes Have It

I had the train compartment to myself upto Rohana, then a girl got in. The couple who saw her off were probably her parents. They seemed very anxious about her comfort and the woman gave the girl detailed instructions as to where to keep her things, when not to lean out of windows, and how to avoid speaking to strangers.

They called their goodbyes and the train pulled out of the station. As I was totally blind at the time, my eyes sensitive only to light and darkness, I was unable to tell what the girl looked like. But I knew she wore slippers from the way they slapped against her heels.

It would take me some time to discover something about her looks and perhaps I never would. But I liked the sound of her voice and even the sound of her slippers.

“Are you going all the way to Dehra?” I asked.

I must have been sitting in a dark corner because my voice startled her. She gave a little exclamation and said, “I didn’t know anyone else was here.”

Well, it often happens that people with good eyesight fail to see what is right in front of them. They have too much to take in, I suppose. Whereas people who cannot see (or see very little) have to take in only the essentials, whatever registers tellingly on their remaining senses.

“I didn’t see you either,” I said. “But I heard you come in.”

I wondered if I would be able to prevent her from discovering that I was blind. “Provided I keep to my seat” I thought, “it shouldn’t be too difficult.” The girl said, “I am getting off at Saharanpur. My aunt is meeting me there.”

“Then I had better not get too familiar,” I thought. “Aunts are usually formidable creatures.”

“Where are you going?” she asked.

“To Dehra and then to Mussoorie.”

“Oh, how lucky you are. I wish I were going to Mussoorie. I love the hills; especially in October.”

“Yes, this is the best time,” I said, calling on my memories. “The hills are covered with wild dahlias, the sun is delicious, and at night you can sit in front of a log fire and drink a little brandy. Most of the tourists have gone and the roads are quiet and almost deserted. Yes, October is the best time.”

She was silent. I wondered if my words had touched her or whether she thought me a romantic fool. Then I made a mistake.

“What is it like outside?” I asked.

She seemed to find nothing strange in the question. Had she noticed already that I could not see? But her next question removed my doubts.

“Why don’t you look out of the window?” she asked.

I moved easily along the berth and felt for the window ledge. The window was open and I faced it, making a pretence of studying the landscape. I heard the panting of the engine, the rumble of the wheels, and, in my mind’s eye I could see telegraph posts flashing by.

“Have you noticed,” I ventured, “that the trees seem to be moving while we seem to be standing still?”

“That always happens,” she said. “Do you see any animals?”

“No,” I answered quite confidently. I knew that there were hardly any animals left in the forests near Dehra.

I turned from the window and faced the girl and for a while we sat in silence.

“You have an interesting face,” I remarked. I was becoming quite daring but it was a safe remark. Few girls can resist flattery. She laughed pleasantly—a clear, ringing laugh.

“It’s nice to be told I have an interesting face. I’m tired of people telling me I have a pretty face.”

Oh, so you do have a pretty face, thought I. And aloud I said, “Well, an interesting face can also be pretty.”

“You are a very gallant young man.” she said. “But why are you so serious?”

I thought, then, that I would try to laugh for her, but the thought of laughter only made me feel troubled and lonely.

“We’ll soon be at your station.” I said.

“Thank goodness it’s a short journey. I can’t bear to sit in a train for more than two or three hours.”

Yet I was prepared to sit there for almost any length of time, just to listen to her talking. Her voice had the sparkle of a mountain stream. As soon as she left the train she would forget our brief encounter. But it would stay with me for the rest of the journey and for some time after.

The engine’s whistle shrieked, the carriage wheels changed their sound and rhythm, the girl got up and began to collect her things. I wondered if she wore her hair in a bun or if it was plaited. Perhaps it was hanging loose over her shoulders. Or was it cut very short?

The train drew slowly into the station. Outside, there was the shouting of porters and vendors and a high-pitched female voice near the carriage door. That voice must have belonged to the girl’s aunt.

“Goodbye!” the girl said.

She was standing very close to me. So close that the perfume from her hair was tantalizing. I wanted to raise my hand and touch her hair but she moved away. Only the scent of perfume still lingered where she had stood.

There was some confusion in the doorway. A man, getting into the compartment, stammered an apology. Then the door banged and the world was shut out again. I returned to my berth. The guard blew his whistle and we moved off. Once again I had a game to play and a new fellow traveller.

The train gathered speed, the wheels took up their song, the carriage groaned and shook. I found the window and sat in front of it, staring into the daylight that was darkness for me.

So many things were happening outside the window. It could be a fascinating game guessing what went on out there.

The man who had entered the compartment broke into my reverie.

“You must be disappointed,” he said. “I’m not nearly as attractive a travelling companion as the one who just left.”

“She was an interesting girl.” I said. “Can you tell me—did she keep her hair long or short?”

“I don’t remember,” he said sounding puzzled. “It was her eyes I noticed, not her hair. She had beautiful eyes but they were of no use to her. She was completely blind. Didn’t you notice?”

Vocabulary

Write down the words/phrases used by the author to describe the sounds mentioned in the lesson.

Sounds mentioned in the lesson	Word/phrases used to describe the sounds
sound of slippers	
the girls' laugh	
the whistle of the train	
carriage	
wheels	
engine	
the aunt's voice	

Grammar

1. Phrasal verbs

Read the following sentences from the story.

1. The couple who **saw** her **off** were probably her parents.
2. The train gathered speed, the wheels **took up** their song.

The words in bold are phrasal verbs. A phrasal verb is a verb followed by a preposition or an adverb; the combination creates a meaning different from the original verb alone.

In sentence 1, the object is between the verb and the preposition. It is thus a separable phrasal verb. In sentence 2, the preposition comes next to the verb and is therefore called inseparable phrasal verb. Sometimes, a phrasal verb may be both separable and inseparable, as in the sentence given below.

He **picked** the book **up**.

He **picked up** the book.

Now use the following phrasal verbs from the story in your own sentences.

- | | | |
|------------|--------------|---------------|
| 1. take in | 2. call on | 3. get off |
| 4. see off | 5. turn from | 6. break into |

2. Narration

In the story we have read in this lesson, the main character is narrating his experiences during a train journey.

Compare column 1 with column 2. Write down the difference related to the use of pronouns, verbs, punctuation and word order in column 3. Some are done for you.

During the school excursion tour to Shivrinarayan, Vikas was interviewed by a local TV channel reporter.

Here is the interview.

Reporter: What is the purpose of the picnic?

Vikas : It's an educational tour.

Reporter: Have the students of all classes in your school come for the tour?

Vikas: No. Only the students of classes 9 and 10 have come.

Reporter: You said that this is an educational tour. How has your visit to Shivrinarayan been educational?

Vikas: Shivrinarayan has great religious importance. During Lord Rama's 'vanavasa' he stayed in this place and met Shabari. Shabari offered delicious fruits to Lord Rama.

Reporter: Would you like to comment on the scenic beauty of this place?

Vikas: Here three rivers meet: Mahanadi, Jonk and Shivnath. It's a wonderful sight.

Reporter: Have you seen Shivrinarayan Temple?

Vikas: Yes. My class teacher told us that this beautiful temple was built in the 12th century AD during Kalchuri period. The temple has a splendid idol of Chaturbhuj Vishnu and Goddess Shabari.

Reporter: Thankyou. Please watch this interview on our news channel.

Vikas: I will surely watch the interview.

Vikas gets back home and describes the tour to his family members.

Father: Welcome , my child.

Moni: Tell me bhaiya, was it fun?

Mother: Did you bring Prasad for us from the temple?

Vikas: Wait wait wait! Listen! Tomorrow you will see me on TV. A reporter interviewed me.

Moni: And what did you tell her? What did she ask you?

Vikas: She asked me about the tour. I told her that we were on an educational tour. I told her that the class teachers had also come with us. She asked me if we go for such tours every year. I denied and added that I was happy that our school had brought us to Shivrinarayan.

Mother: Did she ask you what you like about Shivrinarayan?

Vikas: Yes she enquired how the visit to Shivrinarayan was educational. I replied that Shivrinarayan has great religious importance. During Lord Rama's '*vanavasa*', he stayed in this place and met Shabari. Shabari offered delicious fruits to Lord Rama.

The Muddle Head

I knew a man from Petushkee
As muddleheaded as could be.

He always got mixed up with clothes;
He wore his mittens on his toes,
Forgot his collar in his haste,
And tied his tie around his waist.
What a muddle head was he,
That man who lived in Petushkee!

They told him as he went about:
“You’ve got your coat on inside out!”
And when they saw his hat, they said:
“You’ve put a saucepan on your head!”
What a muddle head was he,
That man who lived in Petushkee!

At lunch he scratched a piece of bread,
And spread some butter on his head.
He put his walking stick to bed,
And he stood in the rack instead.
What a muddle head was he,
That man who lived in Petushkee!

He walked upto a tram one day
And climbed in very sprightly;
Conductor thought that he would pay,
Instead he said politely:
“Parding your beggon,
Kister Monductor,

I'm off for a week's vacation;
 I stop you to beg your cramway tar
 As soon as we reach the station."
 Conductor got a fright
 And didn't sleep that nite.
 What a muddle head was he,
 That man who lived in Petushkee!

He rushed into the first café:
 "A railway ticket please, One way."
 And at the ticket office said:
 "A slice of tea and a cup of bread."
 What a muddle head was he,
 That man who lived in Petushkee!

He passed the man collecting the fares,
 And entered a carriage awaiting repairs,
 That stood on a siding, all by itself.
 Half of his luggage, he put on a shelf,
 The rest on the floor, his coat on his lap
 And settled himself for a bit of a nap.
 All at once he raised his head,
 "I must have been asleep"- he said.
 "Hey, what stop is this?" he cried
 "Petushkee," a voice replied.

Once again he closed his eyes
 And dreamt he was in Paradise.
 When he woke, he looked about,
 Raised the window and leaned out.
 "I've seen this place before, I believe,
 Is it Kharkov or is it Kiev?
 Tell me where I am," he cried.
 "In Petushkee," a voice replied.

And so again he settled down
 And dreamt the world was upside down
 When he woke, he looked about,
 Raised the window and looked out.
 "I seem to know this station too,
 Is it Nalchik or Baku?
 Tell me what its called," he cried.
 "Petushkee" a voice replied.
 Up he jumped: "It's a crime!
 I've been riding all this time,
 And here I am where I began!
 That's no way to treat a man!"
 What a muddle head was he,
 That man who lived in Petushkee!

Ogden Nash

Notes : The muddle head mixes up words and mispronounces them. The expressions he uses are explained below.

<i>Parding your beggon</i>	-	<i>begging your pardon</i>
<i>Kister Monductor</i>	-	<i>Mister Conductor</i>
<i>Stop you to beg</i>	-	<i>beg you to stop</i>
<i>Cramway tar</i>	-	<i>tramway car</i>

About the author

Frederic Ogden Nash (1902-1971) was an American poet well known for his humorous poetry. Nash wrote over 500 pieces of comic verse. The best of his work was published in 14 volumes between 1931 and 1972.

Mainpat

Famously known as the Shimla of Chhattisgarh, Mainpat is a plateau located at a height of 1099 m from the sea level. Out of this area 226 sq.km. is a dense forest cover. This entire plateau is called Mainpat.

Spread over an area of 368 sq.km., this plateau offers breathtaking views of mother nature. Melodiously singing streams, gracefully flowing tranquil rivers, and dense forests brimming with rich flora and fauna enchant millions of travellers. Ayurvedic herbs, rare plants and vibrant varieties of avifauna enliven the beautiful plateau.

Mainpat consists of 24 villages with a total population of 25000. Mainpat is truly a hidden gem, with lots of adventure awaiting tourists in its green slopes, beautiful valleys, gently flowing brooks, unexplored waterfalls and forests.

Historic importance: After the India-China war in 1962-63, Tibetan refugees settled on the plateau and today, the Tibetan population here is approximately 1800. Very rich in their roots, Tibetans have maintained their vibrant culture and Buddhist flavour. A very authentic and highly unique way of life, Buddhism offers the way to Nirvana. Based in Surguja, the people here offer a warm delight to the travellers, giving a glimpse of their

Buddhist culture that transcends all religions.

Buddha Temple: This is the only temple dedicated to Lord Buddha in Chhattisgarh, and the most authentic Buddhist rituals are performed here every day.

The most famous Tibetan festivals are celebrated in this temple. These include: The day of Lord Buddha's first speech after enlightenment, The day lord Buddha returned from heaven to meet his mother after attaining nirvana, new year and Dalai Lama's birth day.

This temple is of special interest to various tourists because it has the rare confluence of Surguja's simplistic Adivasi culture and Tibetan Buddhist culture.

Tiger Point: At the centre of the Mahadev Muda River, where the forest cover is extremely dense, there is a beautiful waterfall that falls from a height of 60 m. Since this was a territory marked by Tigers, it came to be known as the Tiger Point. At this point the river is at its most beautiful best and surrounded by lots of medicinal herbs. The Government has constructed railings so that travellers and tourists can enjoy the breathtaking views from here.

Machali Point: Enveloped in the deep mountain ranges, is a clean river called

Machali Nadi. Full of little fishes, this river falls deeper, creating a spectacular waterfall. This point is called the Machali Point and the height of the waterfall is 48m. Through the droplets and fog of the falling water, the hills look even more mesmerizing. Here, you can also see an 80m waterfall, cascading down like milky white satin. This waterfall is rightly called the Milky Way. For geologists and environmentalists, this point is of special importance. Various water sports can be enjoyed here and tourists can take back memories of a thrilling and exhilarating experience.

Parpatiya: Located in between forest department vigilance point no.2328 and 2329, Damali, Parpatiya presents unlimited natural beauty and heart-stirring surroundings. Many awe-inspiring points can be seen from Parpatiya, mainly- Bandarkot Mountains Raksamada Caves, Dulha-Dulhan mountains, Banraj Dam, Shyam Ghunghutta Dams and Ramgarh Mountains.

The Chhattisgarh Tourism Board has created a spot for adventure sports here. Tourists can enjoy paragliding here.

Mehta Point: Just 8 km away from Mainpat, this spectacular waterfall is embraced by tall mountain ranges. Blending together the borders of Surguja and Raigarh, the Mehta Point is a must visit for all travellers. Comfortable shelters of the Forest Department are available to tourists. The Mehta Point is very much reachable by private vehicles.

Dev Pravah(Jaljali): This beautiful stream located in Kamleshwar, flows incessantly, later falling into an 80m waterfall. This waterfall is called the Dev Pravah and is extremely famous for rich herbs and medicinal plants that grow around it. Enriched with unique flora and fauna, this waterfall offers the tourists an interesting getaway in the proximity of nature.

Caves: Chhattisgarh is a land of mysterious caves, and Mainpat is no exception here. The caves of Mainpat include- Bandarkot, Raksamada (32 km), Bhalumada (8km) and Paiga Khoh.

Cultural Delight: A beautiful blend of various cultures can be enjoyed at Mainpat. The main delights are tribal village, Asgava and Tibetan camps.

Pilgrimage: Different pilgrim destinations welcome you to this sacrosanct land. These include Buddha Math, Kala Mandir (16 km), Banjari Temple (12 km), Jungleshwar Temple (18 km), Shivalaya (12 km), Panhi Pankhna (36 km) and Dulha-Dulhan (31 km).

Forests and Valleys: Bathed in rich green foliage, Mainpat blushes in green with beautiful valleys like – Kadnai (28 km), Kardna(26 km), Sakriya (16 km), Govindpur (21 km) and Paiga (15 km).

Accommodation: In Saila Tourist Resort operated by Chhattisgarh Tourism Board, 2-room forest department shelters are available. Apart from that, at Ambikapur via Darima (55 km) one can reach luxury hotels and authentic Dharmashalas.

How to reach

By Air: Raipur(100 km) is the nearest airport well connected to Mumbai, Delhi, Nagpur, Bhubaneswar, Kolkata, Ranchi, Vishakhapatnam and Chennai.

By Rail: There are trains available from Bilaspur (240 km) from Ambikapur.

By Road: Mainpat is reachable by buses, taxis and private vehicles from Ambikapur (85 km) and Raigarh (193 km)

 e. Dark blue colour
 f. Not uneasy

navy, dawn, step by step, pair, comfortable, dusk

5. Write describing words/phrases related to nature for the picture given below.

.....

.....

.....

.....

.....

.....

6. Read the following sentences.

Example : a) I had the train compartment to myself up to Rohana

b) I slipped and hurt myself

'Myself' in these sentences is a reflexive pronoun. In these sentences myself refers to I. So in these sentences instead of saying 'I slipped and hurt I', we are saying I slipped and hurt myself.

They can be used to emphasize the subject or object of a sentence.

E.g. a) I saw I in the mirror sounds awkward, so we write I saw myself in the mirror.

b) I made the cake myself.

Here is a table showing the subjective and objective pronouns in English and their reflexive forms

Subjective	Objective	Reflexive
I	me	myself
you	you	yourself
he	him	himself
she	her	herself
it	it	itself
one	one	oneself
we	us	ourselves
they	them	themselves
you (plural)	You (plural)	yourselves

Fill in each blank with an appropriate reflexive pronoun as in the example above.
(themselves, ourselves, myself, herself, himself, itself)

- He had the train compartment to.....
- She had the room to.....
- They had the library to.....
- We had the road to.....
- The lion kept all its food to.....

7. Read the following examples

- The train had left **before I reached the station.**
- You may go **wherever you like.**
- I cannot go to school **because I am ill.**

In these sentences the clauses in bold are **adverb clauses**. An adverb clause is a group of words that function as an adverb. It can modify verbs, adverbs and adjectives by telling when, where, why, how, how much and under what condition. It begins with a subordinating conjunction (e.g. after, if, because and although, as etc.) and it contains a subject and a predicate

Example : I hired a taxi so that I could reach the station on time.

Given below are main clauses and adverbial clauses. Match main clauses with adverbials clauses to make meaningful sentences. One has been done. Rewrite the sentences in the blanks below.

Example : I hired a taxi so that I could reach the station on time.

Adverb clause	Subordinators	Example

Tattoos - A Tribal Heritage

Centuries before rockstars and celebrities, tattoos were used by tribal men and women across the world, whether it was the Maoris of New Zealand or the Apatanis of Arunachal Pradesh, to mark out identity and territory.

On his Orkut profile, Michi Laling, a 20-year-old Delhi University student, describes himself as a “free soul with strategically placed tattoos and body piercing.” Ink, in fact, runs in Michi’s blood. Back in his village in Arunachal Pradesh’s Ziro valley, his 80-year-old grandmother also wears a tattoo, though for entirely different reasons. While body art is a fashion statement for Michi, his grandmother was forced to get her face tattooed when she was barely eight.

Centuries before it became an accessory for rock stars and celebrities, Arunachal Pradesh’s Apatani tribe - to which Michi belongs - was tattooing its womenfolk to make them unattractive to rival tribes in neighbouring districts, who might otherwise abduct their prettiest women. Today’s quintessential fashion statement, a tattoo, was a way to protect the identity of various tribes, revealing a rich and eerie intersection of primitive art and violence.

“Apatani women were often abducted by the neighbouring Nishi tribesmen for their beauty, so to make themselves look unattractive, they tattooed their faces and wore huge circular nose plugs,” says S.K. Baruah, an anthropologist who has researched on the tribes of Arunachal Pradesh for more than 30 years. Though not many women born in the last three decades have chosen to get their faces inked - the ‘inhuman’ practice was banned by the government in the ’70s - elderly Apatani women can still be seen with a thick blue line running from their forehead to the tip of the nose and six smaller lines on their lower chin.

The Apatani tattooing procedure used to be a very painful affair. Unlike the state-of-the-art tattoo guns and ink used today, the Apatanis used thorns to cut the skin and soot mixed in animal fat for the dark blue colour. The wounds were allowed to get infected so that the tattoos became larger and clearer.

The Apatanis are not the only tattooed tribe in northeastern India. The headhunting Konyaks of Nagaland used to tattoo their faces like headhunters from the Philippines, Taiwan and other Pacific islands. Facial tattoos were marks of the head-taker, the various designs indicating the person’s prowess in battle and his head-count, write Aditya Arya

and Vibha Joshi in their book *Land of the Nagas*. Researchers also say that tattoos helped establish tribal identity besides enabling recognition after death in a war or a fatal accident. Facial tattooing was prevalent among Noctes and Wanchos of Arunachal as well.

The married women of the Singpho tribe found both in Assam and Arunachal, were tattooed on both legs from the ankle to the knee, while the men tattooed their limbs, while unmarried Singpho girls were barred from wearing a tattoo.

With the modernisation and urbanisation of northeast India over the decades, the tattoo culture has shifted significantly. The traditional patterns may have been replaced by modern motifs, but the meaning behind the pain-inducing practice hasn't changed much - just like today's city bred youth, Nagas regarded tattoos as a sign of strength, courage, and virility because of the pain associated with it.

Indian tribes are not the only ones that tattooed themselves. The Ainu of Japan traditionally wore facial tattoos. Today, one can find Berbers of Tamazgha (North Africa), Maoris of New Zealand, Arabic people in east Turkey and the Atayal of Taiwan with facial tattoos. The practice was widespread among Polynesian peoples and among tribes in the Philippines, Borneo, Samoa, and Cambodia.

Despite some taboos surrounding tattooing, the art continues to be popular in many parts of the world.

3. What do you call someone who studies biology?
Biologist

4. What do you call someone who studies zoology?

.....

The suffix in all the above underlined words is

I. Read the suffixes and their examples carefully. Write the change in meaning after adding the suffix.

For example, when we add ‘-ess’ to the word ‘lion’, it becomes feminine.

Suffixes	Example	Meaning
-ess	lioness, actress	
-est	tallest, biggest	
-ful	beautiful, thankful	
-hood	childhood, neighbourhood	
-ese	Japanese, Chinese	

However, ‘ess’ is not always a suffix as you can see from the words given here: ‘congress’, ‘mess’ ‘less’ like ‘prowess’. Give five more words which end in ‘ess’ where ‘ess’ is not a suffix.

- i.
- ii.
- iii.
- iv.
- v.

II. Prefixes also add certain meanings to the words. For example, in ‘rewrite’, *re-* gives the meaning of ‘doing again’.

Circle the prefixes in the following words:

autobiography, television, semi-circle, co-editor, tricycle, regain,
pre-historic, anti-government

Now complete the following table with the appropriate prefixes.

Meaning	Prefix	Meaning	Prefix	Meaning	Prefix
again, back	re	against		far	
more		three		self	
together		before		half	

III. Read the following words carefully and circle the prefixes in them. Also write in the blank column what each prefix means. One has been done.

Words	Meaning

1. Tattoos were used by tribal men and women across the world.
2. Apatani women were often abducted by the neighbouring Nishi tribesmen for their beauty.
3. The 'inhuman' practice was banned by the government in the 70's.
4. The Apatani women can still be seen with a thick blue line running from their forehead.....

As you can see from the verbs underlined, all the sentences are in the passive voice. In sentences 1-3 the agent of the action is mentioned, whereas in sentence 4 the agent is unknown.

1. Pick out from the text 5 sentences used in the passive voice.
2. Pick out the agent of the action mentioned in each sentence.

In news items, it is very common to use the passive to report an action rather than who did it.

II. Read the newspaper cuttings carefully and suggest appropriate headings and write it on the given space.

A. _____

The city cinema hall was damaged badly.
Several buildings collapsed and many others...

B. _____

Police were attacked by crowds of youths throwing stones and home-made bombs. One police vehicle...

2. Henna first originated in Egypt.
3. Henna was used in the past for colouring the cloth, leather and hair.
4. Mehendi is used by all Indians during weddings and festivals.
5. In rural areas women prepare henna from fresh henna leaves.

Speaking

Here are some views on tattooing.

I don't get tattooed because I donate blood very often.

A tattoo can affect a person's health. So in many countries a tattooed person is not allowed to donate blood for 18 months after getting tattooed.

Candidates with tattoos (up to 3 sq inches) on the inner side of the area between the wrist and the forearm or on outer side of the palm will be considered for recruitment," Col Nisar A Seethi, Director Recruiting at the Army Recruiting Office at Amritsar, said.

Hamaguchi

Along the sea coast in Japan, earthquakes are sometimes followed by terrible tidal waves called Tsunami. This wonderful story of sacrifice and alertness tells of such a tidal wave that struck a small village in Japan.

Long ago, an old man whose name was Hamaguchi, lived in a village in Japan. His farmhouse stood on the edge of a plateau, a flat open space high up on the side of a mountain. Behind his house, the mountain stood still higher and full of dense forests. In front, it sloped gently down to the sea. At the foot of the mountain, along the shore, was the little village made up of about a hundred thatched houses. A little apart from them, stood the temple.

One afternoon, Hamaguchi sat with his grandson on the balcony of his house, watching the people of the village below enjoying the harvest festival. The rice crop had been very good and the villagers were very happy. All the shops and houses were gaily decorated with paper lanterns. The villagers wearing bright coloured clothes were about to start the harvest dance.

From his balcony, Hamaguchi could see the vast sea curling over waves in the bright afternoon sun. Suddenly, Hamaguchi felt a slight movement. The house rocked three or four times and then stood still. Hamaguchi had seen many earthquakes in his life and he was not frightened at all until he looked towards the sea.

The sea had become a menacing dark green and very rough. The tide had changed

all of a sudden. Instead of the waves rolling on to the beach, the water was now running away from the beach. The villagers stopped dancing and ran towards the seashore to see more of the peculiar and strange sight! None of them knew what this strange thing meant. But the old man on the mountainside had seen one such sight when he was a little boy. He knew what the sea would do. There was no time to send a message to the village, nor to ring the bell in the temple, and yet he knew that the people on the seashore had to be warned.

“Yone,” he called his grandson, “Light a torch! Quick!”

The young boy was puzzled, but he asked no questions. He lit the torch at once. The old man ran to the fields, where hundreds of rice sacks were stacked. He ran from one sack to another, applying the torch to each. The dry sacks caught fire quickly. Soon the flames were shooting upwards and the smoke was rising in great columns to join the clouds in the sky.

Yone ran after his grandfather, shouting and crying. “Grandfather! Why are you setting fire to the rice?”

The old man had no time to answer. He just kept putting one stack after another on fire. The strong wind carried the sparks farther and farther till the whole field was ablaze.

The priest in the temple saw the fire and started ringing the big bell. The people turned from the sea to see why the bell was ringing all of a sudden.

In Japan, it is the duty of everyone in the village to help when there is a fire. No sooner did the people see Hamaguchi’s stacks of rice on fire, that they ran towards his fields like an army of ants. Young men and boys, women and girls, old folks, mothers with babies

on their backs, even little children, they all climbed the mountain to join the race to put out the fire.

But, by the time they reached the plateau, it was already too late. The flames had destroyed the entire harvest and turned everything to ash.

“It is too bad!” the people exclaimed. “How did this happen?”

“Grandfather did it!” cried the young boy. “He lit each stack of rice. He has gone mad!”

The people were amazed. They couldn’t believe what they had heard! They stared at Hamaguchi. “You did this?” they cried. “You set fire to your own fields?”

“Look towards the sea,” said the old man, “and you will know why I did it.”

The people turned and looked. Far out they saw a great wall of water sweeping towards them with great force and speed. It was the returning sea! The people shrieked, but their voices were lost in the great sound, louder than any thunder they had ever heard, as the water struck the side of the mountain. The hills shook and they were drenched in a great burst of foam.

When the cloud of spray had disappeared, the people saw a wild sea roaring over what was once their village. Great angry waves tumbled above the housetops, rolling, roaring and tearing off houses, trees, anything that came in its way. Great big rocks were torn away like they were pebbles being tossed around. Again the wall of water struck, and again but with less force each time. At last, it fell back in its former place.

The people stood speechless like statues on the side of the mountain. The village was gone, the temple was no more and the fields had been torn away. Nothing was left of their homes, but a few straw roofs that floated on the water. However, precious human lives were saved on the mountainside by this timely act.

The people now realized why old Hamaguchi had set fire to the rice. There he stood among them, as poor as any. Full of gratitude, all these people, fell on their knees to thank him.

Lafcadio Hearn

About the author

Lafcadio Hearn (1850-1904) became a Japanese citizen, taking the name Yakumo Koizumi. In his book '*Gleanings in Buddha*', published in 1897, Hearn has written about Japanese culture, Buddhist practices and many historical events. One of the most remarkable historical events in this book is that in which Hamaguchi Gohei saves all the villagers of his village from a tsunami.

Meanings in context

tsunami	:	a series of water waves in sea or ocean caused by the displacement of a large volume water
tidal wave	:	very large wave, usually caused by earthquake under the sea
thatched	:	roofs made of straw
menacing	:	frightening
plateau	:	raised ground

Comprehension**I. Answer the following questions.**

1. What similarities and differences do you find between the celebration of harvest festival described in the lesson and that celebrated in your village/town?
2. Hamaguchi was frightened by the tsunami. Why? Write down the expressions which convey his fear.
3. Tada said that his grandfather was mad. Comment on Yone's use of the word 'mad' for his grandfather.
4. What, do you think, the bells in the temple conveyed to the villagers?
5. How would you describe Hamaguchi?
6. Describe the effect of the tsunami on the village. You can take the description from the text and also from your imagination.
7. What do you think would have been the efforts that the villagers would have made to bring life back to normal?

II. Group activity

Present a mute show on the story you have read in this lesson.

Grammar

Read the following paragraph from the story 'Hamaguchi'.

Long ago, **an** old man whose name was Hamaguchi, lived in **a** village in Japan. His farmhouse stood on **the** edge of **a** plateau, **a** flat open space high up on **the** side of **a** mountain. Behind his house, **the** mountain stood still higher and full of dense forests. In front, it sloped gently down to **the** sea. At **the** foot of **the** mountain, along **the** shore, was **the** little village made up of about **a** hundred thatched houses.

The words in bold are articles.

Fill in the blanks with 'a', 'an', or 'the'.

Once upon a time there lived $\frac{1}{1}$ old man with his five sons. As $\frac{1}{2}$ man was getting old and weak he wanted all his sons to join his business and work together. But $\frac{1}{3}$ sons were perpetually quarrelling among themselves.

Once it so happened that they fought so much among themselves that they cut each other's moustache. When $\frac{1}{4}$ old man failed to settle their disputes by his exhortations, he determined to give them $\frac{1}{5}$ practical illustration of $\frac{1}{6}$ evils of lack of union. He asked each one of his sons to bring $\frac{1}{7}$ stick to him. The man tied all $\frac{1}{8}$ five sticks in to $\frac{1}{9}$ bundle. When he had done so, he placed $\frac{1}{10}$ faggot into the hands of each one of them in succession, and ordered them to break it in to pieces. They tried with all their strength, and were not able to do it.

He next opened $\frac{1}{11}$ faggot, took $\frac{1}{12}$ sticks separately, one by one, and again put them into his sons' hands. The sons could easily break them now.

Writing**Study the following paragraph.**

Onam is the most important festival of the state of Kerala. It is a harvest festival. The festival is celebrated to welcome King Mahabali, whose spirit is said to visit Kerala during Onam. Onam is celebrated in the month of August-September. Elaborate feasts, folk songs, elegant dances, energetic games, boat race and floral rangoli mark the celebration of Onam. The feast includes a variety of vegetarian dishes served on a banana leaf. The boats are decorated for the boat race and rowed by hundreds of boatmen who sing while the spectators cheer them.

Let's analyse the paragraph.

As you can see, the paragraph provides answers to the following questions.

Where is Onam celebrated?

Why is Onam celebrated?

When is Onam celebrated?

How is Onam celebrated?

Now write a paragraph on a harvest festival celebrated in your region/area/state. Try to include the features listed above.

Project Work

Work in groups and collect information about various festivals celebrated in your area during the whole year and talk about the significance of each one of them. You may talk to the elders in the family and your neighbourhood. Also categorize the festival month-wise and say which is the most festive month in a year.

A place where you can buy coffee to drink :

A place where the bus stops :

A path for people to walk along :

.....

.....

B. Find a word and a phrase used for 'old' in the poem.

.....

.....

C. Complete the grid using the hints below :

(i) Old (ii) Tradition (iii) Footpath (iv) Hundred years (v) Hello (vi) Much work

4. **Fill in the blanks with the appropriate forms of the words given in brackets.**
 Maoris are great (war) but they follow good sense of (friend) They always keep (smile) faces when they see each other. Wherever they are, they follow the custom of (rub) noses as a symbol of (greet). Their ways of (say) how do you do is full of energy and goodwill.
5. **Read the following sentences and complete the table below. The first sentence has been done for you.**
- The old man felt a slight movement.
 - It is raining.
 - He laughs loudly.
 - The dry sacks caught fire quickly.
 - The priest in the temple saw fire.
 - The strong wind carried the sparks farther.
 - Meenu is walking to school.

No.	Subject	Verb	Object
1.	The old man	felt	a slight movement
2.			
3.			
4.			
5.			

Note : The subject, object or verb can consist of more than one word.

6. **Look at the following sentence:**
- Michi's grandmother wears a tattoo.
 Subject Verb Object
 - Rival tribes abducted their women.
 Subject Verb Object

These sentences are written in active voice. They can also be written in passive voice as follows:

- A tattoo is worn by Michi's grandmother.
- Their women were abducted by rival tribes.

In passive voice, the object of the active sentence becomes the subject of the passive sentence, the form of verb is changed and the subject of the active sentence becomes the object of the passive sentence (or is dropped). Before the new subject 'by' is added.

Observe how the form of the verb changes in passive voice.

wear	is worn
wore	was worn
is wearing	is being worn
was wearing	was being worn
has worn	has been worn
had worn	had been worn
will wear	will be worn

Similarly, find out the subject, verb and object in the following sentences and change them into passive voice.

- a. Ainu of Japan wore facial tattoos.

.....

- b. Apatanis were various kinds of jewellery.

.....

- c. Researchers used Tattoos to identify dead people.

.....

.....

7. Newspaper headlines, public notices etc. often use the passive. Look at this newspaper cuttings.

In newspapers the editor cannot often identify the doer of the action because the doer may not be important or may not be known. Sometimes it is necessary to hide the identity of the doer. In such cases agent / doer can be omitted. Observe the headlines in the news paper cuttings above

Maruti suspends production of cars	(Active Voice)
Traffic disrupted in Gurgaon	(Passive Voice)
Look out notice issued for three students	(Passive Voice)

Convert the sentences below into headlines.

(Remember to take out unnecessary words such as a, the, has, is, some). It is not always necessary to say who or what the action was done by.

- a. The Policemen have arrested several terrorists.

.....

- b. Violent storms hit the coast of Kanyakumari.

.....

- c. Rain disrupted the last day's play between India and South Africa.

Unit 1 - Environment

Once upon a time there was a piece of paper. It could do all sorts of cool things. Like bend, flex, fold, lie flat, stand up, even make paper airplanes. The kids loved playing with it! They would draw on it, cut it out, make shapes, make airplanes on it. But one day the paper found itself old, and wrinkled. Too used up for the kids to keep playing with it. And it was sad. Before it knew what was going on, it found itself stuck at the bottom of the trash can. It got sent out to the big dumpster where the trash men came and picked it up. The little piece of paper was thrown into the truck with all the other papers who were old, wrinkled, and quite grumpy. The journey was bumpy and windy, too long for such a tired piece of paper. It went from light to dark, from wind to rain. It was grabbed at and squished, and finally thrown onto a conveyer with the rest of the paper. It quickly got sorted and pushed, and moved around. The poor little piece of paper could do very little in its weak condition. Soon it saw a massive crusher and realized, 'Oh, No! This is the end! There was so much it wanted to do!' It wanted to be a pamphlet for Hawaii, or a legal binding document. But alas this is the end. And before it knew it, it was crushed back into a thin piece of paper. 'Hmm..,' it thought, 'that's not so bad.' Then it saw the slicer! And the crusher Oh, No! the paper tried to run, it tried to fight with the other papers, but it had one corner caught. It started to tear as it was trying to pull away. It barely broke off, just a fragment got stuck. I can make it! But it was too late. The rest of the papers were sucked out. And the paper closed its eyes. Slowly it blinked. And realized it was perfectly quiet. Even a bit sunny. Looking around the paper realized it was sitting next to a batch of fresh paper. It looked down at itself. Completely clean, smooth with a fresh coat of bleach! Then bending over to examine the rest of itself, to see what was going on it noticed a fine watermark on its back. 'What is this?,' it asked. 'A recycled logo!'

Unit 5 – Culture

In India, Mehndi or Henna is a paste that was traditionally used to decorate women's palms but as time progressed men too started applying it. Traditional Indian designs were representations of the sun and moon on the palm.

The earliest clear evidence of henna application on the body as a dye appears in Egyptian mummies whose hair and nails were stained with the reddish brown tones of henna. Botanists believe that henna plant that originated in Egypt and was later carried to India.

In India and the Arab world, mehndi or henna is applied as a temporary form of skin decoration. Historically henna has also been used for medicinal purposes, to dye cloth and leather as well as hair, to color the manes of horses and fur of other animals.

Mehndi in Indian tradition is typically applied during weddings and festivals like KarvaChauth, Vat Purnima, Diwali, Bhai Dooj, Eid-ul-Fitr and Eid-ul-Adha and Teeja.

In the modern age people buy ready-made Henna cones, which are ready to use. However, in rural areas in India, women grind fresh henna leaves on grinding stones with added oil to achieve much darker colors.
